SUBJECT INDEX

Applied Animal Behaviour Science, volumes 1-25

Abnormal behaviour: see anomalous behaviour

Activity patterns

Grazing distribution and activity patterns of Merino sheep on a saltbush community in south-east Australia 1(1974/1975)17

Social behaviour of roe deer at winter feeding stations 1(1974/1975)35

Behavior and ecology of a small group of urban dogs (*Canis familiaris*) 1(1974/1975) 119

Certain behavioral features in the pariah dog (*Canis familiaris*) in West Bengal 2(1975) 81

An analysis of ingestive behaviour and activity of cattle under field conditions 4(1978) 301

Time budgets in captive Reeve's muntjacs (*Muntiacus reevesi*) 6(1980)277

The influence of environment on daily maintenance behaviour of free-ranging Shorthorn cows in central Australia. II. Multivariate analysis of duration and incidence of activities 7(1981)27

The effect of disturbance on the daily movements of harbour seals and grey seals between the sea and their hauling grounds at Miquelon 7(1981)373

Activity patterns of seaweed-eating sheep on North Ronaldsay, Orkney 8(1982)137

Ecological behavior of free-ranging urban pet dogs 8(1982)161

The social behaviour of free-ranging suburban dogs 10(1983)5

Selected parameters of the Fort Collins, Colorado, dog population, 1979-80 10(1983)19

Changes in activity, spatial pattern and social behavior in calves after grouping 11(1983/1984)217

Activity patterns and behaviour of sled dogs 15(1986)161

Early prediction of adult behaviour in potential guide dogs 15(1986)247

Social behaviour of the calves of semi-wild Maremma cattle, *Bos primigenius taurus* 16(1986)217

Activity patterns and companion preferences of domestic goat kids 19(1987)137

The 24-hour time budget of Przewalski horses 21(1988)5

The effect of enclosure size on social interactions and daily activity patterns of the captive asiatic wild horse (*Equus przewalskii*) 21(1988)147

Time-activity budget of ostriches (*Struthio camelus*) offered concentrate feed and maintained in outdoor pens 22(1988)347

Adaptation

Coping with confinement - features of the environment that influence animals' ability to adapt 22(1988)139

Adaptive ability

The hypnogram as an index of adaptation of farm animals to changes in their environment 2(1975)3

Adaptive ability-see also cattle, chicken, pig

Afrikaner cattle

Factors influencing sexual behaviour of young *Bos indicus* bulls under pen and pasture mating conditions 21(1988)281

Aggression-interspecific

The anti-social behaviour of urban dogs 3 (1977)101

A note on canine aggression towards veterinarians 10(1983)155

Encounters between domestic dogs and free-ranging non-human primates 15(1986)71

Dominance aggression of dogs towards people: behavior profile and response to treatment 16(1986)77

Aggression, intraspecific: see agonistic behaviour**Agonistic behaviour**

Social behaviour of roe deer at winter feeding stations 1(1974/1975)35

Social density and aggression in captive groups of pigtail monkeys (*Macaca nemestrina*) 2(1975)265

A Confirmatory note on the effects of captivity and space on the behavior of the black-tailed prairie dog (*Cynomys ludicianus*) 3 (1977)187

Effect of distance between feeders on aggression in captive chamois (*Rupicapra rupicapra*) 4(1978)253

Ethogram of agonistic behaviour for thoroughbred horses 8(1982)5

Aggressive behavior associated with naturally elevated serum testosterone in mares 8(1982)425

Agonistic behavior and social organization in a herd of goats as affected by the introduction of non-members 8(1982)527

Foal killing by stallions 8(1982)567

Cage-size effects on locomotor, grooming and agonistic behaviours of the slow loris, *Nycticebus coucang* (Primates, Lorisidae) 9 (1982/1983)317

Clinical classification of canine 10(1983)35

Aggressive behavior of dogs kept as companion animals: classification and influence of sex, reproductive status and breed 10 (1983)45

The behaviour of dockyard cats: Interactions of adult males 10(1983)133

Agonistic interactions during competition for different resources in captive European wild pigs (*Sus scrofa*) 10(1983)291

Observations on social interactions in captive Père David's deer (*Elaphurus davidianus*) 11(1983/1984)211

The social interaction between mother and offspring during weaning in German Shepherd dogs: individual differences between mothers and their effects on offspring 13 (1984/1985)101

Nursing behaviour and maternal aggression among Welsh ponies (*Equus caballus*) 14 (1985)11

The social interactions of young bulls and steers after re-grouping 14(1985)37

Determination of dominance-subordination relationships among beef heifers in a dominance tube 14(1985)111

Stereotypies, aggression and the feeding schedules of tethered sows 14(1985)137

Animal behaviour and the arms race 16(1986)93

Control of excessive aggressive disturbance in a heterogeneous troop of rhesus monkeys 18(1987)371

Social behaviour and relationships of Przewalski horses in Dutch semi-reserves 21 (1988)71

Social interactions of the Przewalski horse (*Equus przewalskii* Poliakov, 1881) herd at the Munich zoo 21(1988)89

Social behaviour of Przewalski horses (*Equus p. przewalskii*) in the Cologne zoo and its consequences for management and housing 21(1988)117

The effect of enclosure size on social interactions and daily activity patterns of the captive asiatic wild horse (*Equus przewalskii*) 21(1988)147

A case of male infanticide in *Equus przewalskii* 21(1988)187

Agonistic behaviour—see also cattle, chicken, pig, sheep

Allogrooming: see grooming

Alpaca

Grazing behaviour of llamas, alpacas and sheep in the Andes of Peru 23(1989)237

Anomalous behaviour

A comparative study of the well-being of piglets reared conventionally and in cages 2(1975)339

Behavioral virilization in a brood mare 3 (1977)277

Abnormal behaviour 6(1980)311

Background to anomalous behaviour 13(1984/1985)199

An abnormal facial gesture in an estrous mare 16(1986)199

Classification of behavior problems in dogs: distributions of age, breed, sex and reproductive status 19(1987)169

Anomalous behaviour—see also pig, sheep

Associative behaviour

Animal togetherness 7(1981)303

Pair association between lambs of different breeds born to Jacob and Dalesbred ewes after embryo transplantation 7(1981)351

Pair-association in twin lambs before and after weaning 15(1986)241

Audiogram

A Practicable method of making audiograms in dogs 2(1975)371

Auditory system

Vocal contour cues in maternal recognition of goat kids 3(1977)211

The role of the senses in mare-foal recognition 6(1980)121

Auditory system—see also cattle, chicken, pig, sheep

Autogrooming: see grooming

Aversion

Effect of texture of food on bait-shy behaviour in wild rats (*Rattus rattus*) 5(1979)361

An evaluation of phenol methylcarbamates as taste aversion producing agents in caged blackbirds 8(1982)551

An evaluation of taste aversion control of wolf (*Canis lupus*) predation in Northern Minnesota 9(1982/1983)63

Anthelmintic-based taste aversions in wolves (*Canis lupus*) 9(1982/1983)373

Landrin- and thiabendazole-based conditioned taste aversions in domestic ducks 9(1982/1983)379

Thiabendazole-based taste aversions in dingoes (*Canis familiaris dingo*) and New Guinea wild dogs (*Canis familiaris hallstromi*) 10(1983)385

The effectiveness of animal repellents on dogs and cats in the laboratory and field 12(1984)131

Using conditioned food aversions to protect blueberries from birds: comparison of two carbamate repellents 13(1984/1985)383

The validity of behavioural measures of aversion: a review 16(1986)309

Aversion of sheep for handling treatments: paired-choice studies 16(1986)363

The first evaluation of the use of conditioned taste aversion to control predation by mongooses upon eggs 17(1987)329

Food aversion learning in lambs with or without a mother: discrimination, novelty and persistence 18(1987)327

The potential of estrogen-based conditioned aversion in controlling depredation: a step closer toward the "magic bullet" 23(1989)1

Learning as a measure of aversion 24(1989)84

Ethinyl estradiol and generalized aversions to eggs among free-ranging predators 24(1989)313

Aversive responses of dogs to ultrasonic, sonic and flashing light units 25(1990)1

Avoidance: see agonistic behaviour

Awareness

The question of animal awareness 4(1978)288

Bachelor groups

Buddies and bullies: social structure of a bachelor group of Przewalski horses 21(1988)169

Back-tracking

Frequency of back-tracking in the tracking dog 17(1987)353

Badger

The behaviour of badgers 5(1979)193

The behaviour of badgers and cattle and some factors that affect the chance of contact between the species 14(1985)390

Bat

Case reports on defensive behaviour in equine and bovine subjects in response to vocalization of the common vampire bat (*Desmodus rotundus*) 22(1988)277

Beak trimming

The effect of beak trimming on food intake, feeding behaviour and body weight in adult hens 8(1982)147

Beak trimming and genetic stock effects on behavior and mortality from cannibalism in White Leghorn-type pullets 25(1990)107

Behaviour patterns, general

Behaviour patterns 13(1984/1985)163

Behavioural needs, general

Behavioural needs. Do animals have behavioural needs? 7(1981)381

Needs – behavioural or psychological? 19(1987)345

Discussion 1 19(1987)349

Behavioural needs: can they be explained in terms of motivational models? 19(1987)352

Discussion 2 19(1987)356

Behavioural needs in relation to livestock maintenance 19(1987)368

Discussion 3 19(1987)377

Recognizing behavioral needs 22(1988)151

Beluga

The suckling behavior of a captive beluga (*Delphinapterus leucas*) calf 7(1981)179

Bioethics

Ethology and ethics 1(1974/1975)211

Livestock ethos 8(1982)1

The practice of ethology in animal usage 9(1982/1983)1

Man and animals – the ethical approach (with special reference to intensive husbandry) 15(1986)93

Opening address and welcome 20(1988)1

Biotechnology

Genetic engineering biotechnology: animal welfare and environmental concerns 20(1988)83

Birds, general

Differential use of space by eight species of birds in a free-flight zoological park aviary 3(1977)105

Using conditioned food aversions to protect blueberries from birds: comparison of two carbamate repellents 13(1984/1985)383

Hormones and vocal behaviour of birds 15(1986)183

Hand-rearing of exotic birds and their re-introduction to groups 18(1987)385

Blackbird

An evaluation of phenol methylcarbamates as taste aversion producing agents in caged blackbirds 8(1982)551

Bonding: see interspecific associations**Breed influence**

Sex and strain differences in the open-field responses of the domestic chick 3(1977)255

Maternal recognition and breed identity in lambs living in a mixed flock of Jacob, Clun Forest and Dalesbred sheep 6(1980)221

Effect of familiarity with each other and breed on the spatial behaviour of sheep in an open field 7(1981)67

Effects of sex, strain and type of perch on perching behaviour in the domestic fowl 8(1982)281

Maternal vocal recognition in lambs born to Jacob and Dalesbred ewes after embryo transplantation between breeds 8(1982)479

Aggressive behavior of dogs kept as companion animals: classification and influence of sex, reproductive status and breed 10(1983)45

Early post-natal behaviour in lambs of ten breeds 15(1986)229

The effects of handling procedures, breed differences and treatment with lithium and dexamethasone on some blood parameters in sheep 16(1986)39

Classification of behavior problems in dogs: distributions of age, breed, sex and reproductive status 19(1987)169

Canidae, general

Inter-species interaction differences in play actions in canids 2(1975)181

Cannibalism

Beak trimming and genetic stock effects on behavior and mortality from cannibalism in White Leghorn-type pullets 25(1990)107

Capuchin monkey

Maternal juvenile rejection and its suppression by anesthesia in a Capuchin monkey 4(1978)389

Capybara

Behavioral observations in a capybara colony (*Hydrochoerus hydrochaeris*) 14(1985)89

Cat

The development of play in cats 4(1978)290

Review of some research areas of applied and theoretical interest in domestic animal behavior 6(1980)111

Individual differences in maternal behaviour in the domestic cat 6(1980)387

Control of feral cat populations 9(1982/1983)196

Applied canine and feline ethology 10(1983)1

The expression of an early developmentally emergent defensive bias in the adult domestic cat (*Felis catus*) in non-predatory situations 10(1983)89

Early social isolation of the domestic cat: responses during mechanical toy testing 10(1983)109

Courtship behaviour and sexual selection in the domestic cat 10(1983)117

The behaviour of dockyard cats: Interactions of adult males 10(1983)133

The effectiveness of animal repellents on dogs and cats in the laboratory and field 12(1984)131

Spacing pattern in a colony of urban stray cat (*Felis catus* L.) in the historic centre of Rome 14(1985)289

Feline house-soiling problems 20(1988)335

Cattle-adaptive ability

The use of circadian behaviour to measure adaptation of calves to changes in their environment 22(1988)1

Cattle-agonistic behaviour

Homosexual behavior in feedlot steers: an aggression hypothesis 11(1983/1984)187

Development of sexual and agonistic behaviour in bulls and steers 15(1986)190

The effect of group size and space allowance on the agonistic and spacing behavior of cattle 24(1989)127

Cattle-auditory system

Calf control by voice command in a Brazilian dairy 11(1983/1984)7

Vocal communication among Chillingham cattle 15(1986)189

Cattle-circadian rhythms

Comparison of the time budgets and circadian patterns of maintenance activities in sheep, cattle and horses grouped together 13(1984/1985)19

Cattle-diseases and pests

Face-fly pest intensity, fly-avoidance behavior (bunching) and grazing time in Holstein heifers 8(1982)429

Cattle-fearful behaviour

Exploration and fear in calves newly turned out to pasture 9(1982/1983)93

Relationship of three measures of behavior to milk production 21(1988)307

Cattle-feeding and nutrition

Feeding and sleep patterns of cows prior to and post parturition 1(1974/1975)283

The effects of fasting prior to sampling and diurnal variation on certain aspects of grazing behaviour in cattle 3(1977)163

The sexual behaviour of experimentally underfed bulls 4(1978)55

An analysis of ingestive behaviour and activity of cattle under field conditions 4(1978)301

Feeding behaviour of cattle when offered grass silage in troughs during winter and summer 5(1979)35

A review of the problem of milk-sucking in dairy cows 5(1979)293

The effect of an automatic feed dispenser on the behaviour of lactating dairy cows 6(1980)139

Eating behavior of beef cattle groups fed from a single stall or trough 7(1981)123

Dominance and eating behavior of beef cattle fed from a single stall 7(1981)135

Social interactions amongst beef cows when competing for food 9(1982/1983)279

Grazing behaviour of Chillingham cattle 11(1983/1984)71

Behaviour of cattle using an automated feeding system 11(1983/1984)73

The feeding behaviour of calves in different systems of husbandry 11(1983/1984)75

A note on the effect of recording frequency on the estimation of grazing time of cattle and sheep 11(1983/1984)229

Grazing behaviour by heifers on pastures fertilized with different fertilizer categories 12(1984)33

Social facilitation in teat-fed calves 13(1984/1985)178

Cross-sucking of bucket-reared calves that were tied for varying times after feeding 13(1984/1985)179

Disorders in the feeding behaviour of fattening bulls 14(1985)385

Social interactions and induced behavioural reactions in milk-fed female calves 16(1986)207

The effect of forage supplementation on the behaviour of grazing dairy cows 16(1986)233

- Automatically recorded competitive feeding behaviour as a measure of social dominance in dairy cows 17(1987)41
- Behaviour and abomasal damage in individual veal calves 18(1987)257
- Electronic clocks for measuring grazing time of free-ranging cattle: a comparison with vibracorders and visual observations 18(1987)349
- Grazing dynamics of cattle stocked at heavy rates in a continuous and rotational grazed system 19(1987)1
- The influence of residual stems on biting rates of cattle grazing *Eragrostis lehmanniana* Nees 19(1987)11
- Dry and wet seasonal studies on the grazing behaviour of native N'dama and imported Friesian bulls in a humid tropical environment 19(1987)245
- Expression of the regulation of energy balance on the ingestive behavior of grazing beef cattle supplemented by grain 20(1988)227
- Sucking behaviour of dairy calves fed milk ad libitum by bucket or teat 20(1988)275
- A study of the investigatory behaviour of the dairy cow 21(1988)191
- Grazing behavior responses of rangeland beef cows to winter ambient temperatures and age 21(1988)201
- Grazing behavior of rangeland beef cows differing in milk production 21(1988)315
- Variation in the grazing behaviour of dairy cows measured by a vibrarecorder and bite count monitor 21(1988)329
- Adaptation of automatic feeding systems for dairy cows 21(1988)374
- Behaviour of cows in completely automated feeding systems 21(1988)374
- Choice of position at a food trough by dairy cows 22(1988)83
- The effect of lameness on the feeding behaviour of dairy cows 22(1988)87
- Forage intake responses to winter cold exposure of free-ranging beef cows 23(1989)75
- Accessibility of herbage allowance and ingestive behavior of beef cattle 23(1989)87
- Ingestive behavior of beef heifers within grazing sessions 23(1989)341
- The effect of forage supplementation, herbage height and season on the ingestive behaviour of dairy cows 24(1989)203
- Cattle-foetal behaviour**
- Fetal kinesis and a condition of fetal inertia in equine and bovine subjects 3(1977)89
- Terminal fetal postures observed in a bovine caesarean survey 4(1978)315
- Cattle-general**
- Systematical principles for animal management in accord with behavioural features and with reference to cattle 2(1975)357
- Some features of an ultrasonic study of bovine foetal kinesis 2(1975)379
- Perceptual cues in spatial recognition of heifers 4(1978)287
- The value of the new-born calf in evolutionary studies 4(1978)288
- Applied ethology in a nomadic cattle culture 5(1979)309
- Management and mastitis 8(1982)401
- Application of cow behaviour studies to dairying systems 8(1982)402
- The Chillingham herd of wild white cattle 9(1982/1983)96
- Some naturally occurring mild stressors in dairy herds and their consequences 11(1983/1984)80

The behaviour of badgers and cattle and some factors that affect the chance of contact between the species 14(1985)390

The exploration of proximal objects by young calves 14(1985)391

Some aspects of cattle behaviour in extensive systems 17(1987)383

Case reports on defensive behaviour in equine and bovine subjects in response to vocalization of the common vampire bat (*Desmodus rotundus*) 22(1988)277

Orientation to the sun of British and exotic breed cross cows during the winter 24(1989)115

Frequency of masturbation and time budgets of dairy bulls used for semen production 24(1989)217

Cattle-genetic influences

Influence of cattle rearing conditions and breed on social relationships of mother and young 23(1989)117

Influence of rearing conditions and breed on social behaviour and activity of cattle in novel environments 23(1989)129

Cattle-handling

Husbandry influences on some physiological parameters of emotional responses in calves 1(1974/1975)233

Observations of cattle behavior applied to the design of cattle-handling facilities 6(1980)19

Calf control by voice command in a Brazilian dairy 11(1983/1984)7

Market: A stressful event for calves? 11(1983/1984)84

Changes in the behaviour of cattle during and after road transportation 11(1983/1984)85

The adrenal medulla of the pig and calf is not stimulated when the animals are exposed to simulated transport vibration and noise 14(1985)385

The reaction of young bulls to short-haul road transport 17(1987)209

The effects of human presence at the time of calving of primiparous cows on their subsequent behavioural response to milking 18(1987)247

Long-distance transport of pregnant heifers by truck 20(1988)249

Effects of early handling on heifers' subsequent reactivity to humans and to unfamiliar situations 20(1988)259

The effects of handling by humans at calving and during milking on the behaviour and milk cortisol concentrations of primiparous dairy cows 22(1988)313

Cattle-housing

Preferential residence areas of dairy cows in an open stall system 1(1974/1975)208

Some preliminary field observations on the order of entry of cows into herringbone parlours 1(1974/1975)275

The effects of pen conditions on the development of calf behaviour 4(1978)285

Effects of cold temperature and winter conditions on some aspects of behaviour of feedlot cattle 5(1979)113

Comparison of slipperiness on rubber mats and concrete floors for dairy cows using behavioural methods 5(1979)294

Factors affecting lying behavior and stall utilization of dairy cattle 6(1980)369

Comparison of the behaviour of newborn calves housed with the dam and in the calf-house 6(1980)377

- The development of behaviour in veal calves 4(1978)286
- Behaviour of free-ranging cows and calves 21(1988)369

Cattle-parental behaviour

- Multiple fostering of calves onto nurse cows at birth 3(1977)57
- Investigations of maternal bonding in dairy cattle 3(1977)271
- Observations on the nursing behaviour of beef cows suckling Charolais cross calves 5(1979)369
- The behaviour of dairy cows and their newborn calves in individual or group housing 10(1983)191
- A note on multiple fostering of calves on to nurse cows at a few days post-partum 12(1984)183
- The effects of twinning on mother-offspring behavior in range beef cattle 13(1984/1985)309
- Parturient behaviour and calf survival in a herd selected for twinning 13(1984/1985)321
- Fostering calves by odor transfer 17(1987)33
- The effect of cow-calf separation on the maternal behaviour of the cow (*Bos taurus*) 17(1987)370
- Behaviour of free-ranging beef cows and calves 20(1988)237

Cattle-performance

- Order of cow entry at milking and its relationships with milk yield and consistency of the order 8(1982)45
- Suckling activity and calf growth in a group of crossbred cows each rearing two foster calves 9(1982/1983)131
- Behaviour of group-reared calves fed on acid-milk replacer 11(1983/1984)77
- The role of behavior in cattle production: a review of research 11(1983/1984)359
- Some observations on the role of behavior in cattle production and future research needs 11(1983/1984)413

Social licking pattern and its relationships to social dominance and live weight gain in weaned calves 12(1984)25

A quantitative analysis of social behaviour of different crossbreds of dairy cattle kept in loose housing and its relationship to productivity 13(1984/1985)31

Investigation of relationships between behavioural and production measurements of dairy heifers 15(1986)181

A technique for cross-mothering beef calves which does not affect growth 19(1987)239

Cattle-play

Social behaviour and social relationships between female and male prepubertal bovine calves (*Bos indicus*) 4(1978)43

Cattle-reproduction

The sexual behaviour in experimentally underfed bulls 1(1974/1975)203

Feeding and sleep patterns of cows prior to and post parturition 1(1974/1975)283

Estrous and related behaviour in postpartum Holstein cows 2(1975)55

The sexual behaviour of experimentally underfed bulls 4(1978)55

Observations on group mating of bulls at pasture 5(1979)15

A quantitative study of pre-ovulatory behaviour in cattle (British Friesian heifers) 6(1980)1

Relationships between the incidence of pre-ovulatory behaviour and the concentrations of oestradiol-17 β and progesterone in bovine plasma 7(1981)141

"Libido" in the larger farm animals: a review 7(1981)203

Development of a serving capacity test for beef bulls 7(1981)307

Modification of a serving capacity test for beef bulls 7(1981)321

Further studies on the serving capacity test for beef bulls 7(1981)337

The accuracy of several aids in detecting oestrus in dairy cattle 10(1983)199

Why do cows mount other cows? 13(1984/1985)237

Parturient behaviour and calf survival in a herd selected for twinning 13(1984/1985)321

Social behaviour and reproductive performance in semi-wild Scottish Highland cattle 15(1986)125

Effects of individual vs. group rearing on the sexual behavior of prepubertal beef bulls: mount orientation and sexual responsiveness 15(1986)287

Bull sexual behavior tests: stimulus cow affects performance 16(1986)1

Behaviour of free-ranging beef cows and calves 20(1988)237

Cattle-resting behaviour

Feeding and sleep patterns of cows prior to and post parturition 1(1974/1975)283

Factors affecting lying behavior and stall utilization of dairy cattle 6(1980)369

The reaction of cows to a short-term deprivation of lying 13(1984/1985)301

Resting behaviour of Friesian bulls maintained in a tie-stall barn under two patterns of lighting 19(1987)321

Resting behaviour of Belgian White-Blue and Friesian fattening bulls in a tie-stall barn 21(1988)259

Lying down behaviour in tied or exercised dairy cows 21(1988)369

Influence of supplemental lighting on the resting behaviour of fattening bulls kept in a stanchion barn 22(1988)303

A note on resting behaviour of cows before and after calving in two different housing systems 23(1989)99

Cattle-rhythms

The use of circadian behaviour to measure adaptation of calves to changes in their environment 22(1988)1

Cattle-slaughtering

A survey of Bobby calf marketing in 1976/77 5(1979)197

Race system for cattle slaughter plants with 1.5-m radius curves 13(1984/1985)295

The behaviour of young Friesian bulls during social re-grouping at an abattoir. Influence of an overhead electrified wire grid 18(1987)233

Cattle-social behaviour

"Leadership" in a small herd of dairy cows 1 (1974/1975)206

Analysis of the social rank system in a herd of 41 heifers and cows 1(1974/1975)206

An investigation of factors related to the dominance order of a herd of dairy cows of similar age and breed 2(1975)167

Relation between milking order and dominance value in a group of dairy cows 2 (1975)271

Social behaviour and social relationships between female and male prepubertal bovine calves (*Bos indicus*) 4(1978)43

Competitive order as a measure of social dominance in dairy cattle 4(1978)61

The effect on social organization and milk production of minor group alterations in dairy cattle 5(1979)103

Competitive order as a measure of social dominance in dairy cattle: a criticism of the paper by Friend and Polan 5(1979)191

Social organization among young beef cattle in confinement 6(1980)211

An ethogram of social interaction patterns in group-housed dry sows 6(1980)341

Dominance and eating behavior of beef cattle fed from a single stall 7(1981)135

Social reactions of cows when crowded 7 (1981)384

Spatial relationships within a herd of young sterile bulls and steers 8(1982)27

Leadership during actual grazing in a small herd of cattle 8(1982)53

Dominance hierarchies of cows on Alpine pastures as related to phenotype 8(1982)67

Social dominance in dairy cattle 8(1982)79

Social behaviour and adrenal cortical activity in heifers 8(1982)99

Synchronization of behaviour in grazing cattle 8(1982)403

Patterns and frequency of social interactions in young grazing bulls and steers 9(1982/1983)15

Social behaviour and social bonds between juvenile and sub-adult *Bos indicus* calves 9(1982/1983)92

Effect of early androgen treatment on subsequent social behaviour in heifers 9(1982/1983)94

Social organization and leadership in a grazing herd of suckler cows 9(1982/1983)95

Social interactions amongst beef cows when competing for food 9(1982/1983)279

Social dominance - a straw man revisited?: some comments on the paper by Beilharz and Zeeb 9(1982/1983)380

Operant determination of the cage and feeder size preferences of the laying hen 15(1986) 325

Non-exclusive spatial preference in the laying hen 15(1986)337

Reinforcing properties of access to litter in hens 15(1986)351

Fearfulness of caged laying hens: the effects of cage level and type of roofing 17(1987) 171

Preferences of domestic hens for cage size and floor types as measured by operant conditioning 19(1987)147

Pre-laying behavior of hens kept in single- or multiple-hen cages 19(1987)305

Research on alternatives to the battery system for laying hens 20(1988)29

Effects of intermittent lighting on sleep and activity in the domestic hen 20(1988)309

Floor- and cage-rearing effects on pullets' initial adaptation to multiple-hen cages 20(1988)319

Discrimination by hens in favour of litter rather than wire floors? 21(1988)363

The effect of a sudden change in floor type on pecking behaviour in chicks 22(1988)65

Effects of floor type during rearing and of beak trimming on ground pecking and feather pecking in laying hens 22(1988)359

Evaluation of crowding of caged laying hens (*Gallus domesticus*) using fuzzy set decision analysis 23(1989)155

Use of pen space by broiler chickens: effects of age and pen size 25(1990)125

Chicken-imprinting

Pecking: another measurement for filial attachment in group-reared domestic fowl chicks 21(1988)357

Pattern recognition, updating and filial imprinting in the domestic chicken 24(1989)83

Chicken-incubation techniques

Light exposure during incubation affects competitive behaviour in domestic chicks 23(1989)187

Chicken-maintenance behaviour

Dust-bathing behaviour in the domestic hen 7(1981)386

Dust-bathing in the domestic fowl - diurnal rhythm and dust deprivation 8(1982)487

Chicken-moulting

Behaviour of laying hens during induced moulting in three different production systems 25(1990)97

Chicken-nest-site selection

Observations on the reproductive behaviour of domestic fowl in the wild 4(1978)29

Floor-laying by domestic hens 11(1983/1984)202

The effect of light on the choice of nests by domestic hens 11(1983/1984)249

Nesting material preference of domestic hens 13(1984/1985)182

The individual nest box as a super-stimulus for domestic hens 15(1986)169

Nests and nesting in the domestic fowl: which is the reward? 18(1987)388

Pre-laying behaviour of domestic hens in relation to littered nest sites, pre-formed nests and nests with eggs 21(1988)376

Chicken-olfactory system

Olfactory regulation of behaviour in the domestic chick 13(1984/1985)168

Chicken-ontogeny

Differences in aggressiveness between brooded and non-brooded domestic chicks 4(1978)211

Chicken-performance

The influence of social interactions upon the performance of laying hens in battery cages 1(1974/1975)49

A comparison of the behaviour and production of laying hens in experimental and conventional battery cages 2(1975)291

Frustration and production in purelines of chickens and their reciprocal crosses 4(1978)187

Effects of male presence on agonistic behavior and productivity of White Leghorn hens 5 (1979)267

Changes in food intake and body weight of bantam hens during breeding 5(1979)283

The social rank index as a measure of social status and its association with egg production in White Leghorn pullets 8(1982)377

Relationship between production factors and dominance in White Leghorn hens in a study on social rank and cage design 11 (1983/1984)33

Production and behaviour of laying domestic fowls in outside pens 11(1983/1984)201

The role of behavior in poultry production: a review of research 11(1983/1984)299

Some observations on the role of behavior in poultry production and future research needs 11(1983/1984)391

Dominance rank and cage density effects on performance traits, feeding activity and plasma corticosterone levels of laying hens (*Gallus domesticus*) 17(1987)139

Human handling, flock size and responses to an *E. coli* challenge in young chickens 19 (1987)183

Responses to social disruption in two lines of white leghorn chickens 21(1988)243

Chicken-reproduction

Agonistic and mating behavior of adult chickens modified by social and physical environments 1(1974/1975)57

Sexual responses of pullets to selection for mating behavior in male chickens 1(1974/1975)225

Crowing and mating behaviors in lines of chickens selected for mating frequency 3 (1977)247

Observations on the reproductive behaviour of domestic fowl in the wild 4(1978)29

Some aspects of the behaviour of a population of feral fowl 5(1979)194

Behavioural changes associated with the feeding of low-sodium diets to laying hens 5 (1979)255

Mating behavior of cockerels: effects of social status, group size and group density 6(1980)49

Sexual behavior of dwarf and normal genotypes in divergent growth lines of chickens 6(1980)189

Social and spatial organization of male behaviour in mated domestic fowl 9(1982/1983)341

The development of sexual relationships in the domestic chicken 11(1983/1984)55

Mating behaviour and fertility in domestic chickens. I. Inbreeding 13(1984/1985)371

Chicken-resting behaviour

Effects of sex, strain and type of perch on perching behaviour in the domestic fowl 8 (1982)281

Effects of age, access and time of day on perching behaviour in the domestic fowl 8 (1982)357

Rest in poultry 12(1984)289

Effects of intermittent lighting on sleep and activity in the domestic hen 20(1988)309

Chicken-social behaviour

The influence of social interactions upon the performance of laying hens in battery cages 1(1974/1975)49

Elusive concept of preferred group size in domestic hens 8(1982)365

The social rank index as a measure of social status and its association with egg production in White Leghorn pullets 8(1982)377

The social behaviour of the fowl 9(1982/1983)
84

An analysis of social orientation and the use
of space in a flock of domestic fowl 9(1982/
1983)177

Social and spatial organization of male be-
haviour in mated domestic fowl 9(1982/
1983)341

Relationship between production factors and
dominance in White Leghorn hens in a
study on social rank and cage design 11
(1983/1984)33

Fowl sociometry: social discrimination and
the behaviour of domestic hens during food
competition 11(1983/1984)163

How peck orders of chickens are measured: a
critical review 11(1983/1984)255

On the feeding and social behaviour of the
laying hen 13(1984/1985)129

Aggregation behaviour of laying fowls in a
covered straw-yard 15(1986)183

Inter-individual distances in the domestic hen
17(1987)381

Responses to social disruption in two lines of
white leghorn chickens 21(1988)243

Social influences on the comfort behaviour of
laying hens 22(1988)75

Light exposure during incubation affects com-
petitive behaviour in domestic chicks 23
(1989)187

Beak trimming and genetic stock effects on
behavior and mortality from cannibalism in
White Leghorn-type pullets 25(1990)107

Chicken-spatial distribution

An analysis of social orientation and the use
of space in a flock of domestic fowl 9(1982/
1983)177

Non-exclusive spatial preference in the laying
hen 15(1986)337

Inter-individual distances and orientation in
laying hens housed in groups of three in
two different sized enclosures 24(1989)325

Chicken-stereotyped behaviour

The effect of a rauwolfia tranquillizer on
stereotyped movements in frustrated do-
mestic fowl 1(1974/1975)67

Chicken-vision

Experimenter visibility, spectacles and tonic
immobility in the domestic fowl 22(1988)
371

Chicken-welfare

Position in the peck order and response to hu-
man threat in domestic fowl 9(1982/1983)
351

Chukar partridge

Responses of the chukar partridge and pheas-
ants to a novel object 8(1982)169

Circadian rhythms

The effects of fasting prior to sampling and
diurnal variation on certain aspects of graz-
ing behaviour in cattle 3(1977)163

Diurnal feeding patterns in domestic fowls: a
review 6(1980)71

Circadian behaviour, including thermoregula-
tory activities, in feedlot lambs 6(1980)241

Dust-bathing in the domestic fowl - diurnal
rhythm and dust deprivation 8(1982)487

Comparison of the time budgets and circa-
dian patterns of maintenance activities in

sheep, cattle and horses grouped together
13(1984/1985)19

Diurnal rhythm of bar-biting in relation to
other behaviour in pregnant sows 21(1988)
337

The use of circadian behaviour to measure
adaptation of calves to changes in their
environment 22(1988)1

Circadian rhythms—see also cattle, pig, sheep

Climate

Factors influencing the grazing behaviour of
sheep in a Mediterranean climate 5(1979)
125

Some factors affecting the grazing behaviour
of sheep in winter in New South Wales 8
(1982)119

Feral goat home range: influence of social
class and environmental variables 12(1984)
373

The effects of sire-breed, forage availability
and weather on the grazing behavior of
crossbred ewes 15(1986)217

Dry and wet seasonal studies on the grazing
behaviour of native N'dama and imported
Friesian bulls in a humid tropical environ-
ment 19(1987)245

Clinical ethology

Clinical ethology in food animal practice 22
(1988)191

Clutch size

Proximate constraints on clutch size in do-
mestic pigeons 15(1986)277

Cognition

Cognition: the implications for animal welfare
24(1989)81

Control and cognition: essential elements of
coping 24(1989)81

Colour discrimination

Discrimination of colours and grey shades by
Merino ewes: tests using coloured lambs 5
(1979)215

Colour perception in fighting cattle 23(1989)
199

Common marmoset

Neurohormonal control of sexual behaviour in
the female common marmoset (*Callithrix*
jacchus) 15(1986)189

Conditioning

Classical conditioning of milk ejection using
a novel conditioned stimulus 9(1982/1983)
231

Containment

Containment of free-ranging goats using
pulsed-radio-wave-activated shock collars
23(1989)165

Coprophagy

Coprophagy by foals: recognition of maternal
feces 24(1989)267

Courtship behaviour

The importance of the courting behaviour of the boar on the success of natural and artificial matings 4(1978)341

The effects of maternal influences on sheep: breed differences in grazing, resting and courtship behaviour 6(1980)33

Courtship behaviour and sexual selection in the domestic cat 10(1983)117

The behaviour of dockyard cats: Interactions of adult males 10(1983)133

Coyote

Behavioral patterns of domestic sheep and their relationship to coyote predation 6(1980)315

Differential vulnerability of lambs to coyote predation 12(1984)349

Cross-mothering

A technique for cross-mothering beef calves which does not affect growth 19(1987)239

Culling

A possible relationship between the flinch, step and kick response and milk yield in lactating cows 10(1983)287

De Brazza's Guenon

Ethogram of the De Brazza's Guenon (*Cercocebus neglectus*) in captivity 6(1980)285

Deer, general

Farming deer 6(1980)87

Defaecation: see eliminative behaviour

Defensive behaviour

Case reports on defensive behaviour in equine and bovine subjects in response to vocalization of the common vampire bat (*Desmodus rotundus*) 22(1988)277

Defensive behaviour—see also agonistic behaviour

Deprevalation-behavioural

Behavioural deprivation: a central problem in animal welfare 20(1988)209

Development of behaviour: see ontogeny

Dingo

Thiabendazole-based taste aversions in dingoes (*Canis familiaris dingo*) and New Guinea wild dogs (*Canis familiaris hallstromi*) 10(1983)385

Dog

Behavior and ecology of a small group of urban dogs (*Canis familiaris*) 1(1974/1975)119

- Behavior genetics of F₁ and F₂ coyote-dog hybrids 1(1974/1975)185
- Certain behavioral features in the pariah dog (*Canis familiaris*) in West Bengal 2(1975) 81
- Effects of domestication on prey catching and killing in beagles, coyotes and F₂ hybrids 2 (1975)123
- Inter-species interaction differences in play actions in canids 2(1975)181
- A Practicable method of making audiograms in dogs 2(1975)371
- The anti-social behaviour of urban dogs 3 (1977)101
- The development of social hierarchies in domestic dogs 4(1978)290
- The effect of maternal deprivation between 6 and 10 weeks of age upon the behaviour of Alsatian puppies 5(1979)299
- Selection of desirable behavioural traits in urban dogs 5(1979)381
- The training of guide dogs 6(1980)94
- A masking effect of urine from male dogs 6 (1980)297
- One solution to the urban dog problem: the animal behaviour consultant 7(1981)196
- Behavior of dogs entering a veterinary clinic 7(1981)271
- Ecological behavior of free-ranging urban pet dogs 8(1982)161
- The control of anti-social behaviour in dogs 9 (1982/1983)98
- Genetics of traits which determine the suitability of dogs as guide-dogs for the blind 9(1982/1983)299
- Applied canine and feline ethology 10(1983)1
- The social behaviour of free-ranging suburban dogs 10(1983)5
- Selected parameters of the Fort Collins, Colorado, dog population, 1979-80 10(1983)19
- The effects of differential rearing on exploratory behavior in puppies 10(1983)27
- Clinical classification of canine 10(1983)35
- Aggressive behavior of dogs kept as companion animals: classification and influence of sex, reproductive status and breed 10 (1983)45
- Opioid effects on social behavior of kennel dogs 10(1983)63
- Owner's perception of food flavor preferences of pet dogs in relation to measured preferences of laboratory dogs 10(1983)75
- A note on canine aggression towards veterinarians 10(1983)155
- The social organization of free-ranging urban dogs. I. Non-estrous social behaviour 10 (1983)341
- The social organization of free-ranging urban dogs. II. Estrous groups and the mating system 10(1983)365
- Thiabendazole-based taste aversions in dingoes (*Canis familiaris dingo*) and New Guinea wild dogs (*Canis familiaris hallstromi*) 10(1983)385
- Genetics and behavioural problems in dogs 11 (1983/1984)87
- The use of three breeds of dog to protect rangeland sheep from predators 11(1983/1984)141
- The effectiveness of animal repellents on dogs and cats in the laboratory and field 12 (1984)131
- A factor analysis of fearfulness in potential guide dogs 12(1984)253
- The relationship of fearfulness to, and the effects of, sex, age and experience on exploration and activity in dogs 12(1984)267
- Eliminatory behaviour of domestic dogs in an urban environment 12(1984)279
- The social interaction between mother and offspring during weaning in German Shepherd dogs: individual differences between

- mothers and their effects on offspring 13 (1984/1985)101
- Some aspects of the sexual behaviour of stray dogs, *Canis familiaris* 13(1984/1985)113
- Encounters between domestic dogs and free-ranging non-human primates 15(1986)71
- Activity patterns and behaviour of sled dogs 15(1986)161
- Early prediction of adult behaviour in potential guide dogs 15(1986)247
- Avoidance reactions of domestic dogs to unfamiliar male and female humans in a kennel setting 15(1986)261
- Canine behavioral genetics - a review 15 (1986)365
- Dominance aggression of dogs towards people: behavior profile and response to treatment 16(1986)77
- The behavioural sequences in the communication system between the child and his pet dog 16(1986)383
- Spacing and social organization: urban stray dogs revisited 17(1987)319
- Frequency of back-tracking in the tracking dog 17(1987)353
- Classification of behavior problems in dogs: distributions of age, breed, sex and reproductive status 19(1987)169
- Olfactory cues in the relations between children and their pet dogs 19(1987)189
- Response of bonded and non-bonded sheep to the approach of a trained border collie 21 (1988)251
- Aversive responses of dogs to ultrasonic, sonic and flashing light units 25(1990)1

Dolphins

- Management and behaviour of dolphins 18 (1987)385

Domestication

- Effects of domestication on prey catching and killing in beagles, coyotes and F₂ hybrids 2 (1975)123
- Traits relevant to the domestication of herbivores 7(1981)87
- On the effects of domestication on canine social development and behavior 8(1982) 507
- Domestication in the silver fox (*Vulpes fulvus* Desm): changes in physiological boundaries of the sensitive period of primary socialization 13(1984/1985)359
- The paca (*Cuniculus paca*) as a domestic source of protein for the neotropical, humid lowlands 17(1987)155
- Domestication and the behavior-genetic analysis of captive populations 18(1987)91

Dominance relationships

- Social behaviour of roe deer at winter feeding stations 1(1974/1975)35
- Leadership and dominance relationships in Merino and Border Leicester sheep 1(1974/1975)263
- An investigation of factors related to the dominance order of a herd of dairy cows of similar age and breed 2(1975)167
- Relation between milking order and dominance value in a group of dairy cows 2 (1975)271
- The effects of dominance and infertility of rams on reproductive performance 2(1975) 327
- Social strife in cockerel flocks during the formation of peck rights 3(1977)35
- An analysis of spatial leadership in a small field in a small flock of sheep 3(1977)263
- Competitive order as a measure of social dominance in dairy cattle 4(1978)61

- Dominance hierarchies in domestic horses 4 (1978)273
- Observations on group mating of bulls at pasture 5(1979)15
- Relation of social dominance and body size to intake of supplements in grazing sheep 5 (1979)233
- Mating behavior of cockerels: effects of social status, group size and group density 6(1980)49
- Inhibition of agonistic acts between domestic hens by a dominant third party 6(1980)63
- Social organization among young beef cattle in confinement 6(1980)211
- Dominance and eating behavior of beef cattle fed from a single stall 7(1981)135
- Leadership during actual grazing in a small herd of cattle 8(1982)53
- Dominance hierarchies of cows on Alpine pastures as related to phenotype 8(1982)67
- Social dominance in dairy cattle 8(1982)79
- The social rank index as a measure of social status and its association with egg production in White Leghorn pullets 8(1982)377
- An analysis of agonistic interaction patterns in group-housed dry sows - aggression regulation through an "avoidance order" 9 (1982/1983)47
- Social interactions amongst beef cows when competing for food 9(1982/1983)279
- Tube dominance in piglets, structure and stability of dominance order 9(1982/1983)279
- Relationships among dominance, inter-animal spatial proximity and affiliative social behavior in stump-tail macaques (*Macaca arcoides*) 9(1982/1983)331
- Position in the peck order and response to human threat in domestic fowl 9(1982/1983) 351
- Social dominance - a straw man revisited?: some comments on the paper by Beilharz and Zeeb 9(1982/1983)380
- Relationship between production factors and dominance in White Leghorn hens in a study on social rank and cage design 11 (1983/1984)33
- Social dominance - reply to G.J. and L.A. Syme 11(1983/1984)67
- Fowl sociometry: social discrimination and the behaviour of domestic hens during food competition 11(1983/1984)163
- How peck orders of chickens are measured: a critical review 11(1983/1984)255
- Social facilitation in the feeding behaviour of pigs and the effect of rank 11(1983/1984) 265
- Social licking pattern and its relationships to social dominance and live weight gain in weaned calves 12(1984)25
- Evidence of a role for the vomeronasal organ in social hierarchy in feedlot cattle 12(1984) 53
- Development and consequences of teat-order in piglets 13(1984/1985)47
- Relationships among physical traits, age and social status in Thomson's and Grant's gazelles 13(1984/1985)347
- Determination of dominance-subordination relationships among beef heifers in a dominance tube 14(1985)111
- Social dominance in farmed red deer stags 14 (1985)191
- Expression and relevance of dominance in farmed Rusa deer (*Cervus rusa timorensis*) 14(1985)275
- Social behaviour and reproductive performance in semi-wild Scottish Highland cattle 15(1986)125
- Competitive feeding behavior and social status in multiple-hen cages 16(1986)69
- The stability of equine dominance hierarchies and the effects of kinship, proximity and foaling status on hierarchy rank 16(1986) 121

The social behaviour of free-ranging domestic rabbits (*Oryctolagus cuniculus* L.) 16(1986) 165

Formation of a feeding order in a group of cattle and its relationship with grazing behaviour, heat-tolerance and production 17(1987)9

Effects of number and location of water bowls and social rank on drinking behaviour and performance of loose-housed dairy cows 17(1987)19

Automatically recorded competitive feeding behaviour as a measure of social dominance in dairy cows 17(1987)41

Dominance rank and cage density effects on performance traits, feeding activity and plasma corticosterone levels of laying hens (*Gallus domesticus*) 17(1987)139

Spacing and social organization: urban stray dogs revisited 17(1987)319

Head partitions facilitate feeding by subordinate horses in the presence of dominant pen-mates 19(1987)179

Agonistic and sex-mimicking behaviors as related to rank proximity in rams (*Ovis aries*) 19(1987)291

Social behaviour and relationships of Przewalski horses in Dutch semi-reserves 21(1988)71

Spatial-ethological organization of the herd of Przewalski horses (*Equus przewalskii*) in Askania-Nova 21(1988)99

Social behaviour of Przewalski horses (*Equus p. przewalskii*) in the Cologne zoo and its consequences for management and housing 21(1988)117

Buddies and bullies: social structure of a bachelor group of Przewalski horses 21(1988)169

Donkey

Some studies of comparative aspects of sexual behaviour in ponies and donkeys 7(1981) 169

Does proximity whilst feeding reflect social relationships in domestic donkeys? 22(1988)83

Drinking behaviour

Effects of food on drinking behaviour of growing pigs 7(1981)259

Drinking behaviour of broiler chicks 11(1983/1984)25

Water consumption and time budgets of stabled pony (*Equus caballus*) geldings 17(1987)1

Effects of number and location of water bowls and social rank on drinking behaviour and performance of loose-housed dairy cows 17(1987)19

Drugs: see pharmacology

Duck

Landrin- and thiabendazole-based conditioned taste aversions in domestic ducks 9(1982/1983)379

Dust-bathing

Dust-bathing in the domestic fowl – diurnal rhythm and dust deprivation 8(1982)487

Satiation and cyclic performance of dust-bathing by Japanese quail (*Coturnix coturnix japonica*) 10(1983)375

Reinforcing properties of access to litter in hens 15(1986)351

Short-term feather maintenance as a function of dust-bathing in laying hens 18(1987)197

Ecology

The ecological basis of behaviour 22(1988)215

Eld's deer

A note on the use of the antorbital gland in marking by Eld's deer 1(1974/1975)301

Electro-immobilization

Aversion of sheep to electro-immobilization and physical restraint 15(1986)315

Elephant

Behavior of female African elephants (*Loxodonta africana*) in captivity 6(1980)257

Behavior of a neonate elephant (*Elephas maximus*) 13(1984/1985)157

Eliminative behaviour

Studies on the formation of ungrazed eliminative areas in fields used by horses 3(1977)27

The development of dunging preferences in piglets 4(1978)293

Investigations on the eliminative behaviour of piglets 9(1982/1983)153

A note on the space use for excretory behaviour of suckling piglets 9(1982/1983)367

Equine behaviour: II. A review of the literature on feeding, eliminative and resting behaviour 10(1983)179

Eliminatory behaviour of domestic dogs in an urban environment 12(1984)279

Development of eliminative behaviour in piglets 14(1985)365

Maternal influence on defecation and urination in the newborn calf 16(1986)325

Camping and faeces distribution by Merino sheep 17(1987)273

Feline house-soiling problems 20(1988)335

Embryology

The behaviour of Japanese quail: review of literature from a bioethological perspective 1(1974/1975)77

Emotionality

An analysis of the open-field performance of sub-adult rabbits 24(1989)147

Endocrinology

Behavioral virilization in a brood mare 3(1977)277

Pharmacological or hormonal effects on animal behaviour 5(1979)307

Ability of castrate male sheep treated with oestrogen or testosterone to induce and detect oestrus in ewes 7(1981)57

Relationships between the incidence of pre-ovulatory behaviour and the concentrations of oestradiol-17 β and progesterone in bovine plasma 7(1981)141

Social behaviour and adrenal cortical activity in heifers 8(1982)99

Effect of differential rearing on the behavioral and adrenocortical response of lambs to a novel environment 8(1982)269

Aggressive behavior associated with naturally elevated serum testosterone in mares 8(1982)425

Effectiveness of testosterone-treated wethers and ewes as teasers 9(1982/1983)37

De-arousal properties of stereotyped behaviour: evidence from pituitary-adrenal correlates in pigs 10(1983)233

A method for the quantification of butting activity in androgen-treated wethers 10(1983)319

The influence of handling by humans on the behaviour, reproduction and corticosteroids of male and female pigs 15(1986)303

Behavioral patterns of Zebu bulls towards cows previously synchronized with prostaglandin F_{2α} 21(1988)267

The effects of neonatal social isolation on the behavior and endocrine function of Holstein calves 21(1988)293

Behavioural and hormonal responses to acute surgical stress in sheep 22(1988)283

The effects of handling by humans at calving and during milking on the behaviour and milk cortisol concentrations of primiparous dairy cows 22(1988)313

The potential of estrogen-based conditioned aversion in controlling depredation: a step closer toward the "magic bullet" 23(1989)1

Homosexual and social behaviours of young bulls of different geno- and phenotypes and plasma concentrations of some hormones 24(1989)101

Environmental impact, general

The impact of the environment on farm animal behaviour. Factors affecting the production of behaviour 5(1979)289

The complementing of behavioural and structural patterns by items in the environment 5(1979)290

Ethogram

An ethogram of the liontail macaque (*Macaca silenus*) in captivity 5(1979)241

Ethogram of the De Brazza's Guenon (*Cercopithecus neglectus*) in captivity 6(1980)285

An ethogram of social interaction patterns in group-housed dry sows 6(1980)341

Ethogram of agonistic behaviour for thoroughbred horses 8(1982)5

An ethogram of piglet vocalizations during suckling 11(1983/1984)237

A quantitative ethogram of behavior of yearling ewes during two hours post-parturition 16(1986)157

Ethology, general

Harvesting in ethology 3(1977)205

Evolution

Ethological evolution 2(1975)99

Animal behaviour studies in relation to evolution 6(1980)305

The place of ethology in evolution studies 14(1985)205

Exploratory behaviour

The effects of differential rearing on exploratory behavior in puppies 10(1983)27

Farm animals, general

The behaviour of livestock under intensive conditions of husbandry 1(1974/1975)111

Social behaviour in domestic livestock: the basis for improved animal husbandry 1(1974/1975)177

The hypnogram as an index of adaptation of farm animals to changes in their environment 2(1975)3

Editing a large series of books in animal science 2(1975)285

The effects of sonic booms on farm livestock 3(1977)292

A review of historically significant publications from German speaking countries concerning the behaviour of domestic farm animals 5(1979)5

The behaviour of liberated livestock 5(1979)95

Animal exploration: a review 6(1980)381

At which times of day do behavioural needs become obvious? 7(1981)390

Social tolerance in livestock 8(1982)501

The stress concept and ways of assessing the effects of stress in farm animals 11(1983/1984)79

A practising veterinary surgeon's view of ethology 11(1983/1984)202

A note on behavioural responses of farm animals to ultrasound 12(1984)387

Farrowing behaviour: see parturition

Fearful behaviour

Opioid effects on social behavior of kennel dogs 10(1983)63

Fearful behavior by caged hens of two genetic stocks 10(1983)263

Escape-reaction of captive young red-legged partridges (*Alectoris rufa*) reared with or without visual contact with man 11(1983/1984)177

A factor analysis of fearfulness in potential guide dogs 12(1984)253

The relationship of fearfulness to, and the effects of, sex, age and experience on exploration and activity in dogs 12(1984)267

Fear responses of individually-caged laying hens as a function of cage level and aisle 14(1985)63

Early prediction of adult behaviour in potential guide dogs 15(1986)247

Avoidance reactions of domestic dogs to unfamiliar male and female humans in a kennel setting 15(1986)261

Fearfulness of caged laying hens: the effects of cage level and type of roofing 17(1987)171

Fearful behaviour—see also cattle, chicken, pig, sheep

Feather-pecking

Some observations on the development of feather-pecking in poultry 12(1984)145

Feather-pecking in poultry: its relation with ground-pecking 16(1986)63

Feeding and nutrition

Social behaviour of roe deer at winter feeding stations 1(1974/1975)35

The effects of winter nutritional stress on maternal and neonatal behavior in penned white-tailed deer 2(1975)207

Effect of distance between feeders on aggression in captive chamois (*Rupicapra rupicapra*) 4(1978)253

Stimulation of feeding in neonatal turkeys by flashing lights 5(1979)161

Effect of texture of food on bait-shy behaviour in wild rats (*Rattus rattus*) 5(1979) 361

Food-caching behaviour of captive-reared red foxes 6(1980)363

A grazing recorder for horses – its design and use 8(1982)413

Owner's perception of food flavor preferences of pet dogs in relation to measured preferences of laboratory dogs 10(1983)75

Equine behaviour: II. A review of the literature on feeding, eliminative and resting behaviour 10(1983)179

Using conditioned food aversions to protect blueberries from birds: comparison of two carbamate repellents 13(1984/1985)383

Food-caching by foxes is a selfish strategy: a comment 14(1985)99

A comparison of food selection and foraging behavior in juvenile and adult goats 16(1986)49

Diet learning by domestic ruminants: theory, evidence and practical implications 18(1987)211

Head partitions facilitate feeding by subordinate horses in the presence of dominant pen-mates 19(1987)179

Strategies and tactics in foraging – the pursuit of the eatable 22(1988)85

Nutrition and abnormal behaviour in farm animals 22(1988)88

Time-activity budget of ostriches (*Struthio camelus*) offered concentrate feed and maintained in outdoor pens 22(1988)347

Feeding habits of the Senegal kob (*Kobus kob kob*, Erxleben 1777) under ranching conditions and in the wild 23(1989)179

Feeding and nutrition—see also cattle, chicken, pig, sheep

Felines, general

Artificial prey as behavioral enrichment devices for felines 18(1987)31

Fertility

The prediction of fertility and fecundity from the mating activity of ewes 2(1975)277

The effects of dominance and infertility of rams on reproductive performance 2(1975) 327

Mating competency of rams and flock fertility 4(1978)193

The importance of the courting behaviour of the boar on the success of natural and artificial matings 4(1978)341

Mating behaviour and fertility in domestic chickens. I. Inbreeding 13(1984/1985)371

Fish, general

Fish farming and disease – behavioural aspects 6(1980)89

Pheromones in fish communication 6(1980)90

The uses of ethology in fish-farming 16(1986) 100

Fitness

Behavioural fitness: applied ethology's argument 15(1986)1

Flehmen

Review of some research areas of applied and theoretical interest in domestic animal behavior 6(1980)111

Vomerolnasal organ and the accessory olfactory system 14(1985)105

Stimulus conditions influencing self-enurination genital grooming and flehmen in male goats 16(1986)371

Flehmen behaviour in the domestic horse: discrimination of conspecific odours 19(1987) 227

Flocking behaviour, general

Variations in the strength of maternal behaviour and its conflict with flocking behaviour in Dalesbred, Jacob and Soay ewes 10(1983)245

Foetal behaviour

An exploratory ultrasonic study on quantitative foetal kinesis in the horse 1(1974/1975) 395

Some features of an ultrasonic study of bovine foetal kinesis 2(1975)379

Fetal kinesis and a condition of fetal inertia in equine and bovine subjects 3(1977)89

Radiographic studies of postural behaviour in the sheep fetus: I. Simple fetal movements 3(1977)221

Radiographic studies of postural behaviour in the sheep fetus: II. Complex fetal movements 3(1977)235

Foetal behaviour and the possibility of its detection in farm animals 3(1977)379

Terminal fetal postures observed in a bovine caesarean survey 4(1978)315

The phenomenon of pandiculation in the kinetic behaviour of the sheep fetus 24(1989) 169

Following behaviour

A study of following behaviour in young lambs 2(1975)235

Food—see also feeding and nutrition**Food discrimination**

Effect of texture of food on bait-shy behaviour in wild rats (*Rattus rattus*) 5(1979) 361

The role of the mother in the intake of harmful foods by lambs 25(1990)35

Social influences on conditioned food aversions in sheep 25(1990)45

Fostering techniques

Washing lambs and confinement as aids to fostering 10(1983)251

Fostering in sheep. I. Facilitation by use of textile lamb coats 14(1985)315

Fostering in sheep. II. Use of hessian coats to foster an additional lamb on to ewes with single lambs 14(1985)335

Fostering in sheep. III. Facilitation by the use of odorants 14(1985)345

Fostering in sheep. IV. Use of restraint 14 (1985)355

Fostering calves by odor transfer 17(1987)33

Fostering in sheep. V. Use of unguents to foster an additional lamb onto a ewe with a single lamb 17(1987)95

Fostering lambs by odor transfer: two-lamb substitution 24(1989)247

Fox

The behaviour of foxes and the development of anti-rabies fox control in Britain 5(1979)193

Food-caching behaviour of captive-reared red foxes 6(1980)363

Domestication in the silver fox (*Vulpes fulvus* Desm): changes in physiological boundaries of the sensitive period of primary socialization 13(1984/1985)359

Food-caching by foxes is a selfish strategy: a comment 14(1985)99

Environmental enrichment for captive primates and foxes 18(1987)383

Fuzzy set decision analysis

Evaluation of crowding of caged laying hens (*Gallus domesticus*) using fuzzy set decision analysis 23(1989)155

Gazelle

Relationships among physical traits, age and social status in Thomson's and Grant's gazelles 13(1984/1985)347

Genetics

The behaviour of Japanese quail: review of literature from a bioethological perspective 1(1974/1975)77

Behavior genetics of F₁ and F₂ coyote-dog hybrids 1(1974/1975)185

A technique in the study of aggregative behaviour of sheep 4(1978)369

Interfacing genetics, behavior and husbandry in White Leghorns presented with *E. coli* challenge 5(1979)347

Sexual behavior of dwarf and normal genotypes in divergent growth lines of chickens 6(1980)189

Dominance hierarchies of cows on Alpine pastures as related to phenotype 8(1982)67

Genetic adaptation in relation to animal welfare 8(1982)577

Genetics of traits which determine the suitability of dogs as guide-dogs for the blind 9(1982/1983)299

Canine behavioral genetics - a review 15(1986)365

Some observations on the role of environment and genetics in behaviour of wild and domestic forms of *Sus scrofa* (European wild boars and domestic pigs) 17(1987)253

Domestication and the behavior-genetic analysis of captive populations 18(1987)91

Heritability of the peep vocalization in White Leghorn-type chicks 19(1987)157

Are problems posed by genetically engineered animals? 20(1988)73

Genetic engineering biotechnology: animal welfare and environmental concerns 20(1988)83

The effects of genotype on physiological and behavioural responses related to the welfare of pregnant pigs 20(1988)287

Genetic engineering and animal welfare 22(1988)105

Behaviour in pigs from three genotypes segregating at the halothane locus 23(1989)15

Homosexual and social behaviours of young bulls of different geno- and phenotypes and plasma concentrations of some hormones 24(1989)101

The heritability of the trait fear of humans and the association between this trait and subsequent reproductive performance of gilts 25(1990)85

Beak trimming and genetic stock effects on behavior and mortality from cannibalism in White Leghorn-type pullets 25(1990)107

Genetics—see also cattle, chicken, pig**German literature**

A review of historically significant publications from German speaking countries concerning the behaviour of domestic farm animals 5(1979)5

Gnotobiotic animals

A behavioural comparison of gnotobiotic with normal neonate pigs, indicating stress in the former 2(1975)113

Goat

Ability of goats and calves to distinguish between conspecific urine samples using olfaction 3(1977)145

Vocal contour cues in maternal recognition of goat kids 3(1977)211

Behavioral responses to short-term social isolation in sheep and goats 6(1980)331

Self-suckling behaviour by a feral goat 8(1982)189

Agonistic behavior and social organization in a herd of goats as affected by the introduction of non-members 8(1982)527

Effects of a post-partum separation on maternal responsiveness in primiparous and multiparous domestic goats 8(1982)537

Feral goat parturition and lying-out sites: spatial, physical and meteorological characteristics 10(1983)325

Recognition of mother by newborn goats 12(1984)187

Leavers and stayers: maternal post-partum strategies in feral goats 12(1984)233

Hiding behavior in domestic goat kids 12(1984)245

Feral goat home range: influence of social class and environmental variables 12(1984)373

The relationship of male-male mounting to mate choice and sexual performance in male dairy goats 13(1984/1985)71

Sexual stimulation of male dairy goats 13(1984/1985)83

Mother-infant spatial relationships in domestic goats 13(1984/1985)93

Behavior associated with parturition in the domestic goat 13(1984/1985)335

Mother-young behaviour in ungulates 14(1985)201

A comparison of food selection and foraging behavior in juvenile and adult goats 16(1986)49

Visual discrimination at varying distances in Spanish goats 16(1986)279

Stimulus conditions influencing self-enurination genital grooming and flehmen in male goats 16(1986)371

A note on activity monitoring as a supplement to estrus detection methods for dairy goats 17(1987)347

Relationships between heart rates and behavior of goats in encounters with people 18(1987)363

Activity patterns and companion preferences of domestic goat kids 19(1987)137

Feral goat social organization: a review and comparative analysis 21(1988)209

Bonding of goats to sheep and cattle for protection from predators 22(1988)261

Individual differences in temperament of dairy goats and the inhibition of milk ejection 22(1988)269

Containment of free-ranging goats using pulsed-radio-wave-activated shock collars 23(1989)165

Goose

- Mating and other behavior of domestic geese 3(1977)305

Grazing

- Grazing distribution and activity patterns of Merino sheep on a saltbush community in south-east Australia 1(1974/1975)17
- Studies on the formation of ungrazed eliminative areas in fields used by horses 3(1977)27

- Factors influencing the grazing behaviour of sheep in a Mediterranean climate 5(1979)125
- Ingestive behaviour in sheep under field conditions 5(1979)179
- The influence of shape of paddock, type of fence and stocking rate on grazing behaviour and social facilitation in Merino sheep 5(1979)321
- The effects of maternal influences on sheep: breed differences in grazing, resting and courtship behaviour 6(1980)33
- Leadership during actual grazing in a small herd of cattle 8(1982)53
- Some factors affecting the grazing behaviour of sheep in winter in New South Wales 8(1982)119
- Relationship between dispersion behaviour of free-ranging cattle and forage conditions 8(1982)225
- A grazing recorder for horses - its design and use 8(1982)413

- Face-fly pest intensity, fly-avoidance behavior (bunching) and grazing time in Holstein heifers 8(1982)429

- A note on the effect of recording frequency on the estimation of grazing time of cattle and sheep 11(1983/1984)229

- Grazing behaviour by heifers on pastures fertilized with different fertilizer categories 12(1984)33

- The effects of sire-breed, forage availability and weather on the grazing behavior of crossbred ewes 15(1986)217

- Using digital pedometers to monitor travel of cows grazing arid rangeland 16(1986)11

- Formation of a feeding order in a group of cattle and its relationship with grazing behaviour, heat-tolerance and production 17(1987)9

- Electronic clocks for measuring grazing time of free-ranging cattle: a comparison with vibracorders and visual observations 18(1987)349

- Grazing dynamics of cattle stocked at heavy rates in a continuous and rotational grazed system 19(1987)1

- The influence of residual stems on biting rates of cattle grazing *Eragrostis lehmanniana* Nees 19(1987)11

- Dry and wet seasonal studies on the grazing behaviour of native N'dama and imported Friesian bulls in a humid tropical environment 19(1987)245

- Grazing behavior of rangeland beef cows differing in milk production 21(1988)315

- Variation in the grazing behaviour of dairy cows measured by a vibrarecorder and bite count monitor 21(1988)329

- Grazing behaviour of llamas, alpacas and sheep in the Andes of Peru 23(1989)237

- Ingestive behavior of beef heifers within grazing sessions 23(1989)341

- Grazing distribution of sheep and kangaroos in a semi-arid woodland 24(1989)343

Grey seal

The effect of disturbance on the daily movements of harbour seals and grey seals between the sea and their hauling grounds at Miquelon 7(1981)373

Grooming

Cage-size effects on locomotor, grooming and agonistic behaviours of the slow loris, *Nycticebus coucang* (Primates, Lorisidae) 9 (1982/1983)317

The social interaction between mother and offspring during weaning in German Shepherd dogs: individual differences between mothers and their effects on offspring 13 (1984/1985)101

Mutual grooming and nearest-neighbor relationships among foals of *Equus caballus* 15 (1986)113

Stimulus conditions influencing self-enurination genital grooming and flehmen in male goats 16(1986)371

Self-grooming by mares and foals of the Welsh pony (*Equus caballus*) 17(1987)197

Social interactions of the Przewalski horse (*Equus przewalskii* Poliakov, 1881) herd at the Munich zoo 21(1988)89

Ground-pecking

Feather-pecking in poultry: its relation with ground-pecking 16(1986)63

Grouse

Choices facing foraging red grouse 22(1988) 86

Guinea pig

Effects of vibration and noise on plasma A.C.T.H. and zinc levels and on reproductive performance in the Guinea pig 14 (1985)386

Handling

Shelter seeking and sucking behaviour of the red deer calf (*Cervus elaphus*) in a farmed situation 2(1975)101

The effects of handling at different ages on the subsequent learning ability of 2-year-old horses 15(1986)15

The influence of inconsistent handling by humans on the behaviour, growth and corticosteroids of young pigs 17(1987)245

Normal and more highly reactive horses. II. The effect of handling reserpine on the cardiac response to stimuli 19(1987)215

Effects of early handling on later open-field behaviour in rabbits 24(1989)157

Handling—see also cattle, chicken, pig, sheep

Harbour seal

The effect of disturbance on the daily movements of harbour seals and grey seals between the sea and their hauling grounds at Miquelon 7(1981)373

Harp seal

Examining harp seal behavioural patterns via their underwater vocalizations 2(1975)261

Location and recognition of pups by adult female harp seals 5(1979)375

Headshaking

Headshaking in fowls: the effect of environmental stimuli 11(1983/1984)45

Environmental stimuli and the frequency of head-shaking in lines of White Leghorn hens 12(1984)159

Frequency of headshaking in White Leghorn chickens in response to hormonal and environmental changes 15(1986)267

Effects of headfly (*Hydrotaea irritans* Fallen) infestations and repellents on ear-flicking and head-shaking behaviour of farmed red deer (*Cervus elaphus* L.) 19(1987)41

Health

Animal health implications as a result of future livestock and husbandry developments 20(1988)95

Helmeted guinea fowl

Reproductive behavior of helmeted guinea fowl (*Numida meleagris*): mating system and parental care 16(1986)179

Herbivores, general

Traits relevant to the domestication of herbivores 7(1981)87

Herring gull

Gulls, man and environmental contamination 15(1986)184

Homeostasis

Processes of ethological homeostasis 11(1983/1984)101

Homosexual behaviour

Homosexual and social behaviours of young bulls of different geno- and phenotypes and plasma concentrations of some hormones 24(1989)101

Honeybee

Pollination of coconut (*Cocos nucifera* L.) in Jamaica by honeybees and wasps 1(1974/1975)213

The effect on the foraging behaviour of honeybees of the relative locations of the hive entrance and brood combs 2(1975)141

Managing honeybee colonies to enhance the pollen-gathering stimulus from brood pheromones 5(1979)173

Horse

Eliminative and grazing behaviour in the horse 1(1974/1975)208

An exploratory ultrasonic study on quantitative foetal kinesis in the horse 1(1974/1975)395

Studies on the formation of ungrazed eliminative areas in fields used by horses 3(1977)27

Fetal kinesis and a condition of fetal inertia in equine and bovine subjects 3(1977)89

Behavioral virilization in a brood mare 3(1977)277

Behaviour patterns of horses grazing in paddocks 3(1977)292

Preliminary studies on the behavioural detection of oestrus in Belgian "Warm-Blood" mares with acoustic and tactile stimuli 4(1978)109

Dominance hierarchies in domestic horses 4(1978)273

Imprinting—see also chicken

Bonding of goats to sheep and cattle for protection from predators 22(1988)261

Infanticide

Foal killing by stallions 8(1982)567

A case of male infanticide in *Equus przewalskii* 21(1988)187

Interspecific associations—see also cattle, sheep

Ingestive behaviour

Modification of ingestive behavior due to exercise in yearling horses grazing orchard-grass 22(1988)353

Accessibility of herbage allowance and ingestive behavior of beef cattle 23(1989)87

Ingestive behavior of beef heifers within grazing sessions 23(1989)341

The effect of forage supplementation, herbage height and season on the ingestive behaviour of dairy cows 24(1989)203

Junglefowl

Time budgets in Red Junglefowl as a baseline for the assessment of welfare in domestic fowl 24(1989)77

Kangaroo

Grazing distribution of sheep and kangaroos in a semi-arid woodland 24(1989)343

The effect of daylength and weather conditions on the time spent by western kangaroos (*Macropus fuliginosus*) on farmland 24(1989)353

Ingestive behaviour—see also cattle, chicken, pig, sheep; feeding and nutrition

Kinetic behaviour

Kinetic behaviour and some of its ways 9(1982/1983)107

Interspecific associations

The Integration of social interactions between cebus and spider monkeys in captivity 1(1974/1975)305

Inter-species interaction differences in play actions in canids 2(1975)181

Spatial relationships between sheep, cattle and horse groups grazing together 13(1984/1985)7

Comparison of the time budgets and circadian patterns of maintenance activities in sheep, cattle and horses grouped together 13(1984/1985)19

Kinetogram

Computer production of kinetograms 8(1982)179

Laboratory animals, general

Psychosomatic diseases induced experimentally in small laboratory animals: a brief review 11(1983/1984)78

Learning

Learning in dairy cattle using a device for economical management of behaviour 4(1978) 119

Some relations between stereotyped suckling in piglets and exploratory behaviour and discrimination reversal learning in adult swine 4(1978)223

Training cattle to control by electric fences 7 (1981)113

Observation effects on learning in horses 11 (1983/1984)123

Observational learning in horses 15(1986)7

The effects of handling at different ages on the subsequent learning ability of 2-year-old horses 15(1986)15

Pre- and post-farrowing behaviour in primiparous domesticated pigs 15(1986)31

Repeatability and comparison of two maze tests to measure learning ability in horses 16(1986)103

The learning behaviour of sheep when introduced to wheat. I. Wheat acceptance by sheep and the effect of trough familiarity 18(1987)157

The learning behaviour of sheep when introduced to wheat. II. Social transmission of wheat feeding and the role of the senses 18 (1987)163

Diet learning by domestic ruminants: theory, evidence and practical implications 18 (1987)211

Food aversion learning in lambs with or without a mother: discrimination, novelty and persistence 18(1987)327

The effect of body condition of horses on discrimination learning abilities 22(1988) 327

Discrimination learning in sheep with cues varying in brightness and hue 23(1989)293

Legislation

Science and the politics of animal use in food production. The situation in Australia 20 (1988)143

On-farm animal welfare law in Europe - using the law 20(1988)165

Libido

The effect of two post-weaning management systems on the social and sexual behaviour of zebu bulls 1(1974/1975)31

"Libido" in the larger farm animals: a review 7(1981)203

Light

Activity changes with illumination in slow loris *Nycticebus coucang* 3(1977)281

Stimulation of feeding in neonatal turkeys by flashing lights 5(1979)161

Voluntary regulation of lighting by domestic fowls in skinner boxes 9(1982/1983)73

The effect of light on the choice of nests by domestic hens 11(1983/1984)249

The behaviour of calves under four levels of lighting 13(1984/1985)243

Illumination preferences of pigs 14(1985)233

Preference of turkey hens for nest-boxes of different levels of interior illumination 18 (1987)341

A case for dawn and dusk for housed livestock 18(1987)379

Resting behaviour of Friesian bulls maintained in a tie-stall barn under two patterns of lighting 19(1987)321

Effects of intermittent lighting on sleep and activity in the domestic hen 20(1988)309

Influence of supplemental lighting on the resting behaviour of fattening bulls kept in a stanchion barn 22(1988)303

Light exposure during incubation affects competitive behaviour in domestic chicks 23 (1989)187

Influence of temperature and light on feeding behaviour of pigs 23(1989)215

Aversive responses of dogs to ultrasonic, sonic and flashing light units 25(1990)1

Liontail macaque

An ethogram of the liontail macaque (*Macaca silenus*) in captivity 5(1979)241

Lizard

Environmental constraints of lizard foraging 18(1987)384

Llama

Suckling behavior of Llama (*Lama glama glama*) and Chapman's Zebra (*Equus burchelli antiquorum*) in captivity 7(1981)293

Grazing behaviour of llamas, alpacas and sheep in the Andes of Peru 23(1989)237

Lying behaviour: see resting behaviour

Maintenance behaviour

The behaviour of maintenance 4(1978)299

The influence of environment on daily maintenance behaviour of free-ranging Shorthorn cows in central Australia. I. General introduction and descriptive analysis of day-long activities 7(1981)11

The influence of environment on daily maintenance behaviour of free-ranging Shorthorn

cows in central Australia. II. Multivariate analysis of duration and incidence of activities 7(1981)27

The influence of environment on daily maintenance behaviour of free-ranging Shorthorn cows in central Australia. III. Detailed analysis of sequential behaviour patterns and integrated discussion 7(1981)39

Dust-bathing behaviour in the domestic hen 7(1981)386

Restriction of induced behaviour 7(1981)387

The assessment of behavioural needs of pigs under free-range and confined conditions 7 (1981)388

The exercise needs for tied and free-moving dry sows 7(1981)398

Dust-bathing in the domestic fowl - diurnal rhythm and dust deprivation 8(1982)487

Investigations on the eliminative behaviour of piglets 9(1982/1983)153

Some effects of maternal deprivation on maintenance behavior, spatial relationships and responses to environmental novelty in foals 9(1982/1983)221

Comparison of the time budgets and circadian patterns of maintenance activities in sheep, cattle and horses grouped together 13(1984/1985)19

Agonistic behaviour, responses to a novel object and some aspects of maintenance behaviour in feral-strain and domestic chickens 13(1984/1985)283

Behavioural needs in relation to livestock maintenance 19(1987)368

Animal welfare theory: the keyboard of the maintenance ethosystem 22(1988)177

Pandiculation: the comparative phenomenon of systematic stretching 23(1989)263

Management systems

Systematical principles for animal management in accord with behavioural features and with reference to cattle 2(1975)357

Maremma cattle

Social behaviour of the calves of semi-wild Maremma cattle, *Bos primigenius taurus* 16(1986)217

Marking-scent

A note on the use of the antorbital gland in marking by Eld's deer 1(1974/1975)301

A note on the scent-marking behavior of two captive-reared feral boars 16(1986)85

Masturbation

Frequency of masturbation and time budgets of dairy bulls used for semen production 24(1989)217

Maternal behaviour: see parental behaviour**Maternal-filial bond**

The neonatal bond 2(1975)193

Some features of mother-young relationships in Reeve's muntjac (*Muntiacus reevesi*) 4(1978)379

The role of the senses in mare-foal recognition 6(1980)121

Mother-infant spatial relationships in domestic goats 13(1984/1985)93

Coprophagy by foals: recognition of maternal feces 24(1989)267

Maternal-filial bond—see also cattle, pig, sheep**Mating behaviour**

Agonistic and mating behavior of adult chickens modified by social and physical environments 1(1974/1975)57

Sexual responses of pullets to selection for mating behavior in male chickens 1(1974/1975)225

Mating activity and its relationship to reproductive performance in Merino sheep 1(1974/1975)357

The prediction of fertility and fecundity from the mating activity of ewes 2(1975)277

Crowing and mating behaviors in lines of chickens selected for mating frequency 3(1977)247

Mating and other behavior of domestic geese 3(1977)305

Mating competency of rams and flock fertility 4(1978)193

Observations on group mating of bulls at pasture 5(1979)15

Mating behavior of cockerels: effects of social status, group size and group density 6(1980)49

Social and spatial organization of male behaviour in mated domestic fowl 9(1982/1983)341

The behaviour of dockyard cats: Interactions of adult males 10(1983)133

The social organization of free-ranging urban dogs. II. Estrous groups and the mating system 10(1983)365

The development of sexual relationships in the domestic chicken 11(1983/1984)55

Mating behaviour and fertility in domestic chickens. I. Inbreeding 13(1984/1985)371

The effects of supplementary olfactory and auditory stimuli on the stimulus value and

mating success of the young boar 14(1985)
245

Reproductive behavior of helmeted guinea
fowl (*Numida meleagris*): mating system
and parental care 16(1986)179

The influence of ram mating preferences and
social interaction between rams on the pro-
portion of ewes mated at field joining 18
(1987)173

Feral goat social organization: a review and
comparative analysis 21(1988)209

Factors influencing sexual behaviour of young
Bos indicus bulls under pen and pasture
mating conditions 21(1988)281

Mounting efficiencies, courtship behavior and
mate preference of boars under multi-sire
mating 22(1988)245

The influence of mating conditions on the
sexual behaviour of male and female pigs
23(1989)207

Memory

Characteristics of spatial memory in cattle 23
(1989)331

Methods

Applied ethology and the macroanalytical
method 4(1978)201

A technique in the study of aggregative be-
haviour of sheep 4(1978)369

Note on the effect of recording frequency on
the precision of behavioural experiments 6
(1980)83

Detection of a change in frequency of a be-
havioural activity 7(1981)287

A multiple free choice model for pigs 9(1982/
1983)263

A plea for precision in describing observa-
tional methods 18(1987)205

Milk ejection

A review of the behavioural mechanism of
milk ejection of the domestic pig 6(1980)
247

Classical conditioning of milk ejection using
a novel conditioned stimulus 9(1982/1983)
231

Individual differences in temperament of
dairy goats and the inhibition of milk ejec-
tion 22(1988)269

Mink

Abnormal behaviour in farm mink 17(1987)
375

Mithan

Observations on the behaviour of the Mithan
(*Bibos frontalis* Lambert 1837) in captivity
1(1974/1975)321

Modelling

Analysing qualitative behavioural data: a
Markov chain aid 11(1983/1984)111

Mongoose

The first evaluation of the use of conditioned
taste aversion to control predation by mon-
gooses upon eggs 17(1987)329

Morphological traits

Relationships among physical traits, age and
social status in Thomson's and Grant's
gazelles 13(1984/1985)347

Motivation

Motivation in relation to the welfare of enclosed livestock 22(1988)129

Moulting

Behaviour of laying hens during induced moulting in three different production systems 25(1990)97

Mounting behaviour

The buller syndrome in American bison bulls 11(1983/1984)183

Homosexual behavior in feedlot steers: an aggression hypothesis 11(1983/1984)187

The relationship of male-male mounting to mate choice and sexual performance in male dairy goats 13(1984/1985)71

Why do cows mount other cows? 13(1984/1985)237

Effects of individual vs. group rearing on the sexual behavior of prepuberal beef bulls: mount orientation and sexual responsiveness 15(1986)287

The behaviour of young Friesian bulls during social re-grouping at an abattoir. Influence of an overhead electrified wire grid 18(1987)233

The relationship of male-male mounting to the sexual preferences of young rams 21(1988)347

Mounting efficiencies, courtship behavior and mate preference of boars under multi-sire mating 22(1988)245

Multi-species grazing

Response of bonded and non-bonded sheep to the approach of a trained border collie 21(1988)251

Multiple fostering

Multiple fostering of calves onto nurse cows at birth 3(1977)57

Suckling activity and calf growth in a group of crossbred cows each rearing two foster calves 9(1982/1983)131

A note on multiple fostering of calves on to nurse cows at a few days post-partum 12(1984)183

The effects of twinning on mother-offspring behavior in range beef cattle 13(1984/1985)309

The effects of twinning and maternal experience on maternal-filial social relationships in confined beef cattle 15(1986)137

Neonatal behaviour

Shelter seeking and sucking behaviour of the red deer calf (*Cervus elaphus*) in a farmed situation 2(1975)101

Factors which influence parturition in the mare and development of the foal 9(1982/1983)7

Recognition of mother by newborn goats 12(1984)187

Hiding behavior in domestic goat kids 12(1984)245

Behavior of a neonate elephant (*Elephas maximus*) 13(1984/1985)157

Neonatal behaviour—see also cattle, pig, sheep

Nest-site selection

Preference of turkey hens for nest-boxes of different levels of interior illumination 18(1987)341

Nest site choice and nest building of free-ranging domestic pigs due to farrow 22 (1988)13

Nest-site selection—see also chicken

Neuroethology

Applying neuroethology 14(1985)305

Neuroscience

The ultrastructure of behaviour 4(1978)103

Odour: see olfactory system

Oestrus behaviour

Estrous and related behaviour in postpartum Holstein cows 2(1975)55

A quantitative study of pre-ovulatory behaviour in cattle (British Friesian heifers) 6(1980)1

Some studies of comparative aspects of sexual behaviour in ponies and donkeys 7(1981)169

The social organization of free-ranging urban dogs. II. Estrous groups and the mating system 10(1983)365

Individual differences among mature boars in T-maze preference for estrous or non-estrous sows 17(1987)77

Development and use of a method for quantifying female sexual behaviour in ewes 17(1987)289

A note on activity monitoring as a supplement to estrus detection methods for dairy goats 17(1987)347

Behavioral patterns of Zebu bulls towards cows previously synchronized with prostaglandin F_{2α} 21(1988)267

Incidence of oestrus and oestrous trends in lactating sows housed in different social and physical environments 22(1988)235

Oestrus detection

Preliminary studies on the behavioural detection of oestrus in Belgian "Warm-Blood" mares with acoustic and tactile stimuli 4(1978)109

Ability of castrate male sheep treated with oestrogen or testosterone to induce and detect oestrus in ewes 7(1981)57

The accuracy of several aids in detecting oestrus in dairy cattle 10(1983)199

The effects of two oestrus detection procedures and intense boar stimulation near the time of oestrus on mating efficiency of the female pig 12(1984)339

A comparison of the effects of two oestrus detection procedures and two housing systems on the oestrus detection rate of female pigs 16(1986)345

The efficiency of boars to detect oestrous females housed adjacent to boars 19(1987)81

Habituation to boar stimuli: possible mechanism responsible for the reduced detection rate of oestrous gilts housed adjacent to boars 19(1987)255

Olfactory system

Ability of goats and calves to distinguish between conspecific urine samples using olfaction 3(1977)145

The role of the senses in mare-foal recognition 6(1980)121

A masking effect of urine from male dogs 6(1980)297

Olfactory recognition between mother and calf in reindeer (*Rangifer t. tarandus* L.) 8(1982)561

Evidence of a role for the vomeronasal organ in social hierarchy in feedlot cattle 12(1984)53

Olfactory regulation of behaviour in the domestic chick 13(1984/1985)168

Vomeronasal organ and the accessory olfactory system 14(1985)105

Fostering calves by odor transfer 17(1987)33

Olfactory cues in the relations between children and their pet dogs 19(1987)189

Flehmen behaviour in the domestic horse: discrimination of conspecific odours 19(1987)227

Olfactory system—see also pig, sheep

Ontogeny

The behaviour of Japanese quail: review of literature from a bioethological perspective 1(1974/1975)77

The effects of differential rearing on exploratory behavior in puppies 10(1983)27

Influence of rearing conditions on subsequent social behaviour of Friesian and Salers heifers from birth to six months of age 12(1984)43

Domestication in the silver fox (*Vulpes fulvus* Desm): changes in physiological boundaries of the sensitive period of primary socialization 13(1984/1985)359

Mutual grooming and nearest-neighbor relationships among foals of *Equus caballus* 15(1986)113

Behavior and development in offspring from interspecies embryo transfer: theoretical issues 18(1987)105

Play development in Welsh pony (*Equus caballus*) foals 18(1987)119

Ontogeny of behavior in Przewalski horses 21(1988)41

Ontogeny—see also cattle, chicken, pig, sheep

Open-field test

An analysis of the open-field performance of sub-adult rabbits 24(1989)147

Effects of early handling on later open-field behaviour in rabbits 24(1989)157

Operant conditioning

Methodology for measuring hunger and food needs using operant conditioning in the pig 24(1989)273

Social influences on the reactivity of heifers: implications for learning abilities in operant conditioning 25(1990)149

Orang-utan

Social behaviour in a group of orang-utans (*Pongo pygmaeus abelii*) in a zoo setting 23(1989)141

Ostrich

Time-activity budget of ostriches (*Struthio camelus*) offered concentrate feed and maintained in outdoor pens 22(1988)347

Paca

The paca (*Cuniculus paca*) as a domestic source of protein for the neotropical, humid lowlands 17(1987)155

Pandiculation

Pandiculation: the comparative phenomenon of systematic stretching 23(1989)263

The phenomenon of pandiculation in the kinetic behaviour of the sheep fetus 24(1989)169

Parental behaviour

The effects of winter nutritional stress on maternal and neonatal behavior in penned white-tailed deer 2(1975)207

Reaction of red deer (*Cervus elaphus* L.) hinds to removal of their suckled calves for hand-rearing 3(1977)47

Vocal contour cues in maternal recognition of goat kids 3(1977)211

A general review and survey of maternal behaviour in the rabbit 4(1978)235

Maternal juvenile rejection and its suppression by anesthesia in a Capuchin monkey 4(1978)389

Location and recognition of pups by adult female harp seals 5(1979)375

Effects of a post-partum separation on maternal responsiveness in primiparous and multiparous domestic goats 8(1982)537

Equine behaviour: I. A review of the literature on social and dam-foal behaviour 10(1983)165

Leavers and stayers: maternal post-partum strategies in feral goats 12(1984)233

The social interaction between mother and offspring during weaning in German Shepherd dogs: individual differences between mothers and their effects on offspring 13(1984/1985)101

Nursing behaviour and maternal aggression among Welsh ponies (*Equus caballus*) 14(1985)11

Mother-young behaviour in ungulates 14(1985)201

Mutual grooming and nearest-neighbor relationships among foals of *Equus caballus* 15(1986)113

Reproductive performance and maternal behaviour in farmed Rusa deer (*Cervus (Rusa) timorensis*) 15(1986)147

Reproductive behavior of helmeted guinea fowl (*Numida meleagris*): mating system and parental care 16(1986)179

Induced reactions in young rabbits of dams of different parity and reared on two different nursing schedules 16(1986)285

Parental behaviour—see also cattle, pig, sheep

Partridge

Escape-reaction of captive young red-legged partridges (*Alectoris rufa*) reared with or without visual contact with man 11(1983/1984)177

Parturition

- Feeding and sleep patterns of cows prior to and post parturition 1(1974/1975)283
- Observations on the calving of red deer (*Cervus elaphus*) run in confined areas 1 (1974/1975)293
- Do Merino ewes seek isolation or shelter at lambing? 7(1981)149
- Factors which influence parturition in the mare and development of the foal 9(1982/1983)7
- The behaviour of dairy cows and their newborn calves in individual or group housing 10(1983)191
- Feral goat parturition and lying-out sites: spatial, physical and meteorological characteristics 10(1983)325
- Parturient behaviour and calf survival in a herd selected for twinning 13(1984/1985)321
- Behavior associated with parturition in the domestic goat 13(1984/1985)335
- Pre- and post-farrowing behaviour in primiparous domesticated pigs 15(1986)31
- A quantitative ethogram of behavior of yearling ewes during two hours post-parturition 16(1986)157
- Peri-parturient changes in behaviour in free-ranging domestic pigs 17(1987)69
- The effects of human presence at the time of calving of primiparous cows on their subsequent behavioural response to milking 18(1987)247
- Feral goat social organization: a review and comparative analysis 21(1988)209
- The effects of handling by humans at calving and during milking on the behaviour and milk cortisol concentrations of primiparous dairy cows 22(1988)313

Pecking

- Pecking: another measurement for filial attachment in group-reared domestic fowl chicks 21(1988)357
- The effect of a sudden change in floor type on pecking behaviour in chicks 22(1988)65
- Effects of floor type during rearing and of beak trimming on ground pecking and feather pecking in laying hens 22(1988)359

Pecking—see also featherpecking, ground-pecking

Perching behaviour

- Effects of sex, strain and type of perch on perching behaviour in the domestic fowl 8 (1982)281
- Effects of age, access and time of day on perching behaviour in the domestic fowl 8 (1982)357

Père David's deer

- Observations on social interactions in captive Père David's deer (*Elaphurus davidianus*) 11(1983/1984)211

Pest avoidance behaviour

- Face-fly pest intensity, fly-avoidance behavior (bunching) and grazing time in Holstein heifers 8(1982)429
- Refuge-seeking and pest avoidance by feral horses in desert and island environments 9 (1982/1983)111
- Effects of headfly (*Hydrotaea irritans* Fallen) infestations and repellents on ear-flicking and head-shaking behaviour of farmed red deer (*Cervus elaphus* L.) 19(1987)41

Pharmacology

The effect of a rauwolfia tranquillizer on stereotyped movements in frustrated domestic fowl 1(1974/1975)67

Maternal juvenile rejection and its suppression by anesthesia in a Capuchin monkey 4 (1978)389

Pharmacological or hormonal effects on animal behaviour 5(1979)307

Responses of tranquilized post-partum ewes to alien lambs 8(1982)109

Anthelmintic-based taste aversions in wolves (*Canis lupus*) 9(1982/1983)373

Landrin- and thiabendazole-based conditioned taste aversions in domestic ducks 9(1982/1983)379

Opioid effects on social behavior of kennel dogs 10(1983)63

Thiabendazole-based taste aversions in dingoes (*Canis familiaris dingo*) and New Guinea wild dogs (*Canis familiaris hallstromi*) 10(1983)385

A history of the pharmacology of abnormal behaviour in farm animals 15(1986)192

Developmental study of the effect of haloperidol and naloxone on captivity-induced stereotypies 17(1987)379

Is social stress in pigs a detrimental factor to health and growth that can be avoided by amperozide treatment? 23(1989)39

Pheasant

Responses of the chukar partridge and pheasants to a novel object 8(1982)169

Pheromones

Managing honeybee colonies to enhance the pollen-gathering stimulus from brood pheromones 5(1979)173

Review of some research areas of applied and theoretical interest in domestic animal behavior 6(1980)111

Philosophy

The philosophical position of applied ethology; A reply 14(1985)379

Physiology

Social behaviour of piglets in a semi-natural environment 21(1988)365

Behaviour of fattening pigs in a labyrinth pen with environmental variation 21(1988)366

Is social stress in pigs a detrimental factor to health and growth that can be avoided by amperozide treatment? 23(1989)39

Integration of piglets into social groups of free ranging domestic pigs 23(1989)223

Social dominance: how the pig sees it 24(1989)82

Pig-spatial distribution

A note on the space use for excretory behaviour of suckling piglets 9(1982/1983)367

Pig-stereotyped behaviour

Some relations between stereotyped suckling in piglets and exploratory behaviour and discrimination reversal learning in adult swine 4(1978)223

De-arousal properties of stereotyped behaviour: evidence from pituitary-adrenal correlates in pigs 10(1983)233

Etiology of stereotyped behaviour in relation to pig feeding methods 15(1986)295

Ethiology of stereotyped behaviour in pig husbandry 17(1987)177

Hunger as a cause of stereotypic behaviour in tethered sows 17(1987)377

Neighbour effects and the stress of tethering in sows 21(1988)366

Influence of neighbours on stereotypic behaviour of tethered sows 24(1989)137

Pig-thermoregulatory behaviour

Regulated decline in deep body temperature as an adaptation to cold and food restrictions in piglets 15(1986)191

Pig-vision

An investigation of the roles of boar-component stimuli in the expression of proceptivity in the female pig 18(1987)287

Pig-welfare

Physiological and behavioural aspects of assessing stress and welfare in the pig 8(1982) 579

Effects of chronic stress on some blood parameters in the pig 9(1982/1983)273

Urinary excretion of an endogenous MAO inhibitor as a possible indicator of stress in pigs 15(1986)197

Pig, wild

Agonistic interactions during competition for different resources in captive European wild pigs (*Sus scrofa*) 10(1983)291

Remarks on the behaviour of wild boar 15 (1986)179

Some observations on the role of environment and genetics in behaviour of wild and domestic forms of *Sus scrofa* (European wild boars and domestic pigs) 17(1987)253

Pigeon

Proximate constraints on clutch size in domestic pigeons 15(1986)277

Pigtail monkey

Social density and aggression in captive groups of pigtail monkeys (*Macaca nemestrina*) 2(1975)265

Play

Inter-species interaction differences in play actions in canids 2(1975)181

Social behaviour and social relationships between female and male prepubertal bovine calves (*Bos indicus*) 4(1978)43

Animal play 12(1984)307

Choice of companions in social play in piglets 13(1984/1985)259

Play development in Welsh pony (*Equus caballus*) foals 18(1987)119

Social behaviour and relationships of Przewalski horses in Dutch semi-reserves 21 (1988)71

Poisoning

"Poison-shyness" and "bait-shyness" developed by wild rats (*Rattus rattus* L.). I. Methods for eliminating "shyness" caused by barium carbonate poisoning 24(1989)89

Pollination

Pollination of coconut (*Cocos nucifera* L.) in Jamaica by honeybees and wasps 1(1974/1975)213

Prairie dog

A Confirmatory note on the effects of captivity and space on the behavior of the black-tailed prairie dog (*Cynomys ludicianus*) 3 (1977)187

Predation

Effects of domestication on prey catching and killing in beagles, coyotes and F₂ hybrids 2 (1975)123

Some behavioural observations on domestic fowl in the wild 2(1975)255

Behavioral patterns of domestic sheep and their relationship to coyote predation 6 (1980)315

An evaluation of taste aversion control of wolf (*Canis lupus*) predation in Northern Minnesota 9(1982/1983)63

The expression of an early developmentally emergent defensive bias in the adult domestic cat (*Felis catus*) in non-predatory situations 10(1983)89

The use of three breeds of dog to protect rangeland sheep from predators 11(1983/1984)141

Differential vulnerability of lambs to coyote predation 12(1984)349

The first evaluation of the use of conditioned taste aversion to control predation by mongooses upon eggs 17(1987)329

Artificial prey as behavioral enrichment devices for felines 18(1987)31

Bonding of sheep to cattle as an effective technique for predation control 19(1987)19

Ethinyl estradiol and generalized aversions to eggs among free-ranging predators 24 (1989)313

Preventive ethology

Preventive ethology 2(1975)1

Letters to the Editor 2(1975)391

Primates, general

Observations on abnormal behaviour in captive primates 3(1977)290

Encounters between domestic dogs and free-ranging non-human primates 15(1986)71

The influence of zoo visitors on the behaviour of captive primates 18(1987)19

Environmental enrichment for captive primates and foxes 18(1987)383

Production, general

A suggestion for criteria to evaluate the acceptability of systems and procedures to which animals are submitted 5(1979)290

Przewalski horse

Przewalski horses 21(1988)1

The 24-hour time budget of Przewalski horses 21(1988)5

Time budgets of adult Przewalski horses: effects of sex, reproductive status and enclosure 21(1988)19

Ontogeny of behavior in Przewalski horses 21 (1988)41

Social behaviour and relationships of Przewalski horses in Dutch semi-reserves 21 (1988)71

Social interactions of the Przewalski horse (*Equus przewalskii* Poliakov, 1881) herd at the Munich zoo 21(1988)89

Spatial-ethological organization of the herd of Przewalski horses (*Equus przewalskii*) in Askania-Nova 21(1988)99

Social behaviour of Przewalski horses (*Equus p. przewalskii*) in the Cologne zoo and its consequences for management and housing 21(1988)117

The effect of enclosure size on social interactions and daily activity patterns of the captive asiatic wild horse (*Equus przewalskii*) 21(1988)147

Buddies and bullies: social structure of a bachelor group of Przewalski horses 21 (1988)169

A case of male infanticide in *Equus przewalskii* 21(1988)187

Psychology

The contributions of psychology to a knowledge of farm animal behaviour 2(1975)197

Puberty

Effects of composition and density of the group on the performance, behaviour and age at puberty in swine 14(1985)127

Boar-induced puberty in gilts handled pleasantly or unpleasantly during rearing 22 (1988)225

Publishing, general

Multiple authorship in animal science 3(1977) 299

"Applied animal ethology": survey of first twenty-five issues 8(1982)391

Quail

The behaviour of Japanese quail: review of literature from a bioethological perspective 1(1974/1975)77

Satiation and cyclic performance of dust-bathing by Japanese quail (*Coturnix coturnix japonica*) 10(1983)375

Stimulation of sexual development in female Japanese quail by male song: sensitive periods in the nycthemeron 13(1984/1985)169

Studies on the relationship between fearfulness and egg quality traits in Japanese quail 18(1987)389

Rabbit

A general review and survey of maternal behaviour in the rabbit 4(1978)235

Observations of the effects of simulated transport stress on pregnancy, parturition and respiration in the rabbit 6(1980)390

Effects of early handling in the domestic rabbit 11(1983/1984)86

The social behaviour of free-ranging domestic rabbits (*oryctolagus cuniculus* L.) 16(1986) 165

Induced reactions in young rabbits of dams of different parity and reared on two different nursing schedules 16(1986)285

Spacing behaviour of free-ranging domestic rabbits, *Oryctolagus cuniculus* L. 18(1987) 185

An analysis of the open-field performance of sub-adult rabbits 24(1989)147

Effects of early handling on later open-field behaviour in rabbits 24(1989)157

Rape

Some aspects of the sexual behaviour of stray dogs, *Canis familiaris* 13(1984/1985)113

Rat

Effect of texture of food on bait-shy behaviour in wild rats (*Rattus rattus*) 5(1979) 361

Environmental influences and exploration in the rat 6(1980)384

Some observations on activities of a small group of confined ewes with single, twin, or triplet lambs 3(1977)83

The importance of odour, appearance and voice in maternal recognition of the young in Merino sheep (*Ovis aries*) 3(1977)127

Importance of visual clues from various body regions in maternal recognition of the young in Merino sheep (*Ovis aries*) 3(1977) 137

A comparison of the role of vision and hearing in ewes finding their own lambs 4(1978)71

Maternal responses in Merino ewes to artificially coloured lambs 4(1978)141

Odour, and the recognition of lambs by Merino ewes 4(1978)153

The development of the maternal-offspring bond in sheep 4(1978)293

Recognition of washed lambs by Merino ewes 7(1981)77

Responses of tranquilized post-partum ewes to alien lambs 8(1982)109

Lamb mortality due to inadequate care of twins by Merino ewes 8(1982)243

Failure to mask lamb odour with odoriferous substances 8(1982)253

Odour cues to maternal recognition of lambs: an investigation of some possible sources 9 (1982/1983)165

Variations in the strength of maternal behaviour and its conflict with flocking behaviour in Dalesbred, Jacob and Soay ewes 10(1983)245

Washing lambs and confinement as aids to fostering 10(1983)251

The effect of experience on twin-care in New Zealand Romney sheep 12(1984)363

Role of noradrenergic inputs to the olfactory bulbs in the recognition of the lamb by its dam 13(1984/1985)173

Behavior of parturient ewes in group-lambing pens with and without cubicles 14(1985)163

Fostering in sheep. I. Facilitation by use of textile lamb coats 14(1985)315

Fostering in sheep. II. Use of hessian coats to foster an additional lamb on to ewes with single lambs 14(1985)335

Fostering in sheep. III. Facilitation by the use of odorants 14(1985)345

Fostering in sheep. IV. Use of restraint 14(1985)355

Importance of the first hour post-partum for exclusive maternal bonding in sheep 16(1986)295

Fostering in sheep. V. Use of unguents to foster an additional lamb onto a ewe with a single lamb 17(1987)95

Maternal behaviour in ewes following Caesarian section 19(1987)273

Influence of parity and litter size on maternal behaviour in sheep at parturition 24(1989)86

Sheep-performance

Effects of nutritional experience in early and adult life on the performance and dietary habits of sheep 3(1977)5

Statistical and probabilistic estimators of forage conditions from grazing behaviour of

Merino sheep in a semi-arid environment 4(1978)357

Some observations on the growth and behaviour of lambs within twin groups of different sex 6(1980)304

The role of behavior in sheep production: a review of research 11(1983/1984)341

Some observations on the role of behavior in sheep production and future research needs 11(1983/1984)407

Sheep-predation

The use of three breeds of dog to protect rangeland sheep from predators 11(1983/1984)141

Differential vulnerability of lambs to coyote predation 12(1984)349

Sheep-reproduction

Influence of the sexual receptivity of a teaser ewe on the mating preference in the ram 1(1974/1975)229

Mating activity and its relationship to reproductive performance in Merino sheep 1(1974/1975)357

The prediction of fertility and fecundity from the mating activity of ewes 2(1975)277

The effects of dominance and infertility of rams on reproductive performance 2(1975)327

Radiographic studies of postural behaviour in the sheep fetus: I. Simple fetal movements 3(1977)221

Radiographic studies of postural behaviour in the sheep fetus: II. Complex fetal movements 3(1977)235

Factors affecting sexual preferences in sheep 3(1977)291

- Effect of changing the teaser ewe on the sexual activity of the ram 4(1978)87
- Mating competency of rams and flock fertility 4(1978)193
- The effects of maternal influences on sheep: breed differences in grazing, resting and courtship behaviour 6(1980)33
- Ability of castrate male sheep treated with oestrogen or testosterone to induce and detect oestrus in ewes 7(1981)57
- Do Merino ewes seek isolation or shelter at lambing? 7(1981)149
- Sexual partner preference of adult rams (*Ovis aries*) as affected by social experiences during rearing 7(1981)157

- Grazing distribution of sheep and kangaroos in a semi-arid woodland 24(1989)343

Sheep—stereotyped behaviour

Behaviour of sheep transferred from pasture to an animal house 12(1984)121

Sheep—sucking behaviour

The effect of lack of vision on suckling behaviour of lambs 1(1974/1975)245

To butt or not to butt: suckling tactics in lambs 17(1987)371

Suckling behaviour of artificially-reared lambs: what kind of teat elicits spontaneous sucking? 19(1987)99

The sucking behaviour of triplet, twin and single lambs at pasture 22(1988)39

Sheep—thermoregulatory behaviour

Use of shelter and selection of lambing sites by shorn and unshorn ewes in paddocks with closely or widely spaced shelters 5 (1979)51

Sheltering behaviour and lamb mortality amongst shorn Merino ewes lambing in paddocks with a restricted area of shelter or no shelter 6(1980)163

Circadian behaviour, including thermoregulatory activities, in feedlot lambs 6(1980)241

Sheltering behaviour of shorn and unshorn sheep in mixed or separate flocks 8(1982) 127

The effects of thermoregulatory behaviour on the heat loss from shorn sheep as measured by a model ewe for micro-climate integration 13(1984/1985)59

The influence of social factors on the use of shade by sheep 18(1987)143

Sheep—vision

The roles played by the senses of the ewe in the location and recognition of lambs 1 (1974/1975)139

The roles of sight and hearing in the lamb in the location and discrimination between ewes 1(1974/1975)167

The effect of lack of vision on suckling behaviour of lambs 1(1974/1975)245

A comparison of the role of vision and hearing in lambs finding their own dams 1(1974/1975)369

Role of auditory and visual cues in mutual recognition between ewes and lambs in Merino sheep 3(1977)65

The importance of odour, appearance and voice in maternal recognition of the young in Merino sheep (*Ovis aries*) 3(1977)127

Importance of visual clues from various body regions in maternal recognition of the young in Merino sheep (*Ovis aries*) 3(1977) 137

A comparison of the role of vision and hearing in ewes finding their own lambs 4(1978)71

Visual discrimination between ewes by lambs 4(1978)81

Maternal responses in Merino ewes to artificially coloured lambs 4(1978)141

Discrimination of colours and grey shades by Merino ewes: tests using coloured lambs 5 (1979)215

Visual field, restricted vision and sheep movement in laneways 6(1980)175

Maternal recognition and breed identity in lambs living in a mixed flock of Jacob, Clun Forest and Dalesbred sheep 6(1980)221

Experiments on attracting sheep to move along a laneway. III. Visual stimuli 8(1982) 457

Interactions between normal ewes and newly born lambs deprived of visual, olfactory and tactile sensory information 19(1987) 119

Sheep-welfare

Sheep behaviour and welfare 5(1979)292

Shelter seeking behaviour

Shelter seeking and sucking behaviour of the red deer calf (*Cervus elaphus*) in a farmed situation 2(1975)101

Silver fox

Abnormal behaviour in farmed silver fox vixens (*Vulpes vulpes* L.): tail-biting and infanticide 17(1987)376

Slaughtering

The handling of livestock prior to slaughter 6 (1980)93

Pig behavior studies applied to slaughter-plant design 9(1982/1983)141

Race system for cattle slaughter plants with 1.5-m radius curves 13(1984/1985)295

The behaviour of young Friesian bulls during social re-grouping at an abattoir. Influence of an overhead electrified wire grid 18(1987) 233

Slaughtering—see also cattle, pig

Sleep

Sleep as an index of an animal's adaptation to its environment 1(1974/1975)207

Slow loris

Activity changes with illumination in slow loris *Nycticebus coucang* 3(1977)281

Cage-size effects on locomotor, grooming and agonistic behaviours of the slow loris, *Nycticebus coucang* (Primates, Lorisidae) 9 (1982/1983)317

Snow leopard

Nursing behavior of snow leopard cubs 4 (1978)159

Social behaviour

Social behaviour in domestic livestock: the basis for improved animal husbandry 1 (1974/1975)177

Social animal science 14(1985)1

Social behaviour in a group of orang-utans (*Pongo pygmaeus abelii*) in a zoo setting 23(1989)141

Evaluating equine dominance in draft mares 24(1989)55

Social relationships of reindeer *Rangifer tarandus* during rut: implications for female choice 24(1989)183

Social behaviour—see also cattle, chicken, pig, sheep

Social facilitation

Social facilitation in the horse (*Equus caballus*) 25(1990)167

Social grouping

Social organization of feral horses in western Canada 8(1982)207

Social isolation

Some effects of social deprivation on behavioral development of lambs 3(1977)367

Behavioral responses to short-term social isolation in sheep and goats 6(1980)331

Some effects of maternal deprivation on maintenance behavior, spatial relationships and responses to environmental novelty in foals 9(1982/1983)221

Early social isolation of the domestic cat: responses during mechanical toy testing 10(1983)109

Modification of the responses of sheep to isolation stress by the use of mirror panels 19(1987)331

Social organization, general

Review of social systems 9(1982/1983)83

Socialization

Domestication in the silver fox (*Vulpes fulvus* Desm): changes in physiological boundaries of the sensitive period of primary socialization 13(1984/1985)359

Spatial distribution

Differential use of space by eight species of birds in a free-flight zoological park aviary 3(1977)105

A computer-assisted technique for processing spacing and orientation behavior 4(1978)205

Some theoretical and observed relationships of fixed and portable spacing behavior of animals 5(1979)201

A note on the space use for excretory behaviour of suckling piglets 9(1982/1983)367

Selected parameters of the Fort Collins, Colorado, dog population, 1979-80 10(1983)19

Feral goat home range: influence of social class and environmental variables 12(1984)373

Spatial relationships between sheep, cattle and horse groups grazing together 13(1984/1985)7

Mother-infant spatial relationships in domestic goats 13(1984/1985)93

Spacing pattern in a colony of urban stray cat (*Felis catus* L.) in the historic centre of Rome 14(1985)289

The social behaviour of free-ranging domestic rabbits (*Oryctolagus cuniculus* L.) 16(1986)165

Spacing behaviour of free-ranging domestic rabbits, *Oryctolagus cuniculus* L. 18(1987)185

Spatial-ethological organization of the herd of Przewalski horses (*Equus przewalskii*) in Askania-Nova 21(1988)99

The effect of daylength and weather conditions on the time spent by western kangaroos (*Macropus fuliginosus*) on farmland 24(1989)353

Spatial distribution—see also cattle, chicken, sheep

Spider monkey

The Integration of social interactions between cebus and spider monkeys in captivity 1(1974/1975)305

Statistical methods

Statistical significance in comparative ethological experiments 16(1986)303

Stereotyped behaviour

The effect of a rauwolfia tranquillizer on stereotyped movements in frustrated domestic fowl 1(1974/1975)67

Stereotypies and their causation 3(1977)290

Hindleg-head-contact behaviour in reindeer 3(1977)351

Some relations between stereotyped suckling in piglets and exploratory behaviour and discrimination reversal learning in adult swine 4(1978)223

Food-caching behaviour of captive-reared red foxes 6(1980)363

Stereotypies and the behavioural regulation of motivational state 6(1980)386

On behavioural similarities between animal and human stereotypies, with a note on a preliminary analysis of stereotypic movements in psychotic children 9(1982/1983)197

De-arousal properties of stereotyped behaviour: evidence from pituitary-adrenal correlates in pigs 10(1983)233

Behaviour of sheep transferred from pasture to an animal house 12(1984)121

Stereotypies, aggression and the feeding schedules of tethered sows 14(1985)137

Etiology of stereotyped behaviour in relation to pig feeding methods 15(1986)295

Ethiology of stereotyped behaviour in pig husbandry 17(1987)177

Behaviour and abomasal damage in individual veal calves 17(1987)373

Hunger as a cause of stereotypic behaviour in tethered sows 17(1987)377

Neighbour effects and the stress of tethering in sows 21(1988)366

Influence of neighbours on stereotypic behaviour of tethered sows 24(1989)137

Stress

The need for evaluation of anxiety and pain 1(1974/1975)209

A behavioural comparison of gnotobiotic with normal neonate pigs, indicating stress in the former 2(1975)113

The effects of winter nutritional stress on maternal and neonatal behavior in penned white-tailed deer 2(1975)207

Social strife in cockerel flocks during the formation of peck rights 3(1977)35

Does frustration induce aggression in pigs? 6(1980)351

Adaptation to different types of stress 8(1982)577

Objective measurements of stress 8(1982)578

Relationships between parameters of the open field test of cows and their milk production in loose housing 9(1982/1983)121

Aversion of sheep to electro-immobilization and physical restraint 15(1986)315

An exploratory study of behavioural differences between young pigs susceptible and non-susceptible to stress syndrome 16(1986)335

Behaviour and abomasal damage in individual veal calves 18(1987)257

Modification of the responses of sheep to isolation stress by the use of mirror panels 19(1987)331

Animal stress and strain: definition and measurements 20(1988)119

Blood catecholamines in response to handling in normal and stress-susceptible swine 22(1988)255

Behavioural and hormonal responses to acute surgical stress in sheep 22(1988)283

Experimenter visibility, spectacles and tonic immobility in the domestic fowl 22(1988) 371

Behaviour in pigs from three genotypes segregating at the halothane locus 23(1989)15

Is social stress in pigs a detrimental factor to health and growth that can be avoided by amperozide treatment? 23(1989)39

Stretching behaviour

Pandiculation: the comparative phenomenon of systematic stretching 23(1989)263

The phenomenon of pandiculation in the kinetic behaviour of the sheep fetus 24(1989) 169

Stumptail macaque

Relationships among dominance, inter-animal spatial proximity and affiliative social behavior in stumptail macaques (*Macaca arcoides*) 9(1982/1983)331

Suckling behaviour

Shelter seeking and suckling behaviour of the red deer calf (*Cervus elaphus*) in a farmed situation 2(1975)101

Some relations between stereotyped suckling in piglets and exploratory behaviour and discrimination reversal learning in adult swine 4(1978)223

An artificial sow to investigate the behaviour of sucking piglets 7(1981)359

The influence of early suckling experience on the occurrence of preputial sucking in veal calves 17(1987)372

Suckling and teat disputes by neonatal piglets 22(1988)23

Occurrence of unsuccessful sucklings in newborn piglets in a semi-natural environment 23(1989)61

Suckling behaviour and milk consumption in newborn piglets as a response to sow grunting 24(1989)227

Sucking behaviour—see also cattle, sheep

Suckling behaviour

A method of animal identification in studies on multisuckling behaviour 2(1975)93

Nursing behavior of snow leopard cubs 4 (1978)159

The suckling behavior of a captive beluga (*Delphinapterus leucas*) calf 7(1981)179

Suckling behavior of Llama (*Lama glama glama*) and Chapman's Zebra (*Equus burchelli antiquorum*) in captivity 7(1981)293

Suckling activity and calf growth in a group of crossbred cows each rearing two foster calves 9(1982/1983)131

Communication during suckling in the domestic pig. Effects of continuous noise 14 (1985)49

The development of nursing behaviour in swine 14(1985)225

Daily variations in suckling behaviour and relationship between suckling intensity and lactation anestrus in Texel ewes 23(1989) 247

Tail-biting

Review of some research areas of applied and theoretical interest in domestic animal behavior 6(1980)111

Attraction to blood as a factor in tail-biting by pigs 17(1987)61

Teaching

Zoos as teaching aids for the comparative psychology course 18(1987)83

Teat-order

A study of the development of the teat order in piglets 2(1975)225

Teat-order in groups of piglets reared on an artificial sow. I. Formation of teat-order and influence of milk yield on teat preference 8(1982)335

Teat-order in groups of piglets reared on an artificial sow. II. Maintenance of teat-order with some evidence for the use of odour cues 8(1982)347

Development and consequences of teat-order in piglets 13(1984/1985)47

Techniques—animal identification

A method of animal identification in studies on multisuckling behaviour 2(1975)93

Techniques—audiogram

A Practicable method of making audiograms in dogs 2(1975)371

Techniques—data collection

The etho-piano, a new aid in ethological studies 2(1975)385

A computer-assisted technique for processing spacing and orientation behavior 4(1978)205

The use of an electronic monitoring device to record the effect of cow cubicle floor gradients on cow occupancy 10(1983)279

A method for the quantification of butting activity in androgen-treated wethers 10(1983)319

Validating techniques to sample behavior of confined, young pigs 16(1986)149

Development and use of a method for quantifying female sexual behaviour in ewes 17(1987)289

Electronic clocks for measuring grazing time of free-ranging cattle: a comparison with vibracorders and visual observations 18(1987)349

Routine ethological recording in field trials: experience from housing systems with transponder feeding of loose pregnant sows 21(1988)373

Techniques—data recording

Some theoretical and observed relationships of fixed and portable spacing behavior of animals 5(1979)201

Computer production of kinetograms 8(1982)179

A note on the effect of recording frequency on the estimation of grazing time of cattle and sheep 11(1983/1984)229

Electronic recording of pressure exerted by cows against structures in free-stall housing 13(1984/1985)41

KIBOS: A microcomputerized system for the continuous collection and analysis of behavioral data 13(1984/1985)205

A description of micro- and mainframe-computer programs to summarize frequency, duration and sequences of behavior 13(1984/1985)219

Using digital pedometers to monitor travel of cows grazing arid rangeland 16(1986)11

Automatically recorded competitive feeding behaviour as a measure of social dominance in dairy cows 17(1987)41

Sampling strategies for clustered behavioural elements of short duration 19(1987)315

Variation in the grazing behaviour of dairy cows measured by a vibrarecorder and bite count monitor 21(1988)329

Techniques-egg incubation

Light exposure during incubation affects competitive behaviour in domestic chicks 23(1989)187

Techniques-feeding and nutrition

Methodology for measuring hunger and food needs using operant conditioning in the pig 24(1989)273

Techniques-maternal-filial bond

A technique for cross-mothering beef calves which does not affect growth 19(1987)239

Techniques-olfactory system

Operant methods for the study of olfaction or vision in pigs and ruminants 6(1980)90

Techniques-piglet mortality

Preliminary trials of a sound-activated device to reduce crushing of piglets by sows 24(1989)23

Effects of rain and fly harassment on feeding behaviour of free-ranging feral goats 24(1989)23

Techniques-reproduction

A note on activity monitoring as a supplement to estrus detection methods for dairy goats 17(1987)347

Behavior and development in offspring from interspecies embryo transfer: theoretical issues 18(1987)105

Techniques-shock collars

Containment of free-ranging goats using pulsed-radio-wave-activated shock collars 23(1989)165

Techniques-tests

Interpreting ethological data 5(1979)189

Evaluation of crowding of caged laying hens (*Gallus domesticus*) using fuzzy set decision analysis 23(1989)155

Techniques-unattended containment

Containment of free-ranging goats using pulsed-radio-wave-activated shock collars 23(1989)165

Techniques-vision

Operant methods for the study of olfaction or vision in pigs and ruminants 6(1980)90

Techniques, general

Goal-oriented ethology 3(1977)295

Temperature

- Effects of cold temperature and winter conditions on some aspects of behaviour of feedlot cattle 5(1979)113
- Effects of temporary power failure on temperature, humidity and the activity of pigs in an experimental piggery 10(1983)219
- Selection of bedded and unbedded areas by pigs in relation to environmental temperature and behaviour 14(1985)117
- Responses of newborn piglets to thermal and tactile properties of their environment 15(1986)203
- The group postural behaviour of growing pigs in relation to air velocity, air and floor temperature 16(1986)353
- Formation of a feeding order in a group of cattle and its relationship with grazing behaviour, heat-tolerance and production 17(1987)9
- Teat-seeking behaviour in newborn lambs. I. Evidence for the influence of maternal skin temperature 18(1987)301
- Grazing behavior responses of rangeland beef cows to winter ambient temperatures and age 21(1988)201
- Influence of temperature and light on feeding behaviour of pigs 23(1989)215

Territorial behaviour

- A Confirmatory note on the effects of captivity and space on the behavior of the black-tailed prairie dog (*Cynomys ludicianus*) 3(1977)187

- Partial preferences: a problem or an insight into the effects of confinement? 15(1986)92
- Bull sexual behavior tests: stimulus cow affects performance 16(1986)1
- A preliminary experiment on T-maze choice tests 19(1987)51

Thermoregulatory behaviour

- Use of shelter and selection of lambing sites by shorn and unshorn ewes in paddocks with closely or widely spaced shelters 5(1979)51
- Sheltering behaviour and lamb mortality amongst shorn Merino ewes lambing in paddocks with a restricted area of shelter or no shelter 6(1980)163
- Circadian behaviour, including thermoregulatory activities, in feedlot lambs 6(1980)241
- Sheltering behaviour of shorn and unshorn sheep in mixed or separate flocks 8(1982)127

The effects of thermoregulatory behaviour on the heat loss from shorn sheep as measured by a model ewe for micro-climate integration 13(1984/1985)59

Time spent in shade and its relationship with physiological factors of thermoregulation in three breeds of cattle 13(1984/1985)227

Regulated decline in deep body temperature as an adaptation to cold and food restrictions in piglets 15(1986)191

The influence of social factors on the use of shade by sheep 18(1987)143

Time budget

The 24-hour time budget of Przewalski horses 21(1988)5

Time budgets of adult Przewalski horses: effects of sex, reproductive status and enclosure 21(1988)19

The effect of enclosure size on social interactions and daily activity patterns of the captive asiatic wild horse (*Equus przewalskii*) 21(1988)147

Tonic immobility

Tonic immobility ("righting time") in laying hens housed in cages and pens 7(1981)369

Transportation

Carriage of animals by air 1(1974/1975)205

The transport of animals by roll-on/roll-off vessels 5(1979)197

Behavioural observations on farm animals in transit 5(1979)291

The effects of simulated transport and handling on heart rate, blood pressure and renal arterial blood flow in the pig 8(1982)409

The reaction of young bulls to short-haul road transport 17(1987)209

Long-distance transport of pregnant heifers by truck 20(1988)249

Turkey

Stimulation of feeding in neonatal turkeys by flashing lights 5(1979)161

Preference of turkey hens for nest-boxes of different levels of interior illumination 18(1987)341

Twinning: see multiple fostering

Ultrasound

A note on behavioural responses of farm animals to ultrasound 12(1984)387

Aversive responses of dogs to ultrasonic, sonic and flashing light units 25(1990)1

Urination: see eliminative behaviour

Vegetarianism

On an alleged moral basis of vegetarianism 6(1980)205

The moral basis of vegetarianism 7(1981)189

In defence of the vegetarian argument 7(1981)190

The moral argument about vegetarianism 8(1982)571

Veterinary medicine

Clinical ethology in food animal practice 22 (1988)191

Veterinary examination of suffering as a behaviour-linked condition 23(1989)353

Vision

The role of the senses in mare-foal recognition 6(1980)121

Visual discrimination at varying distances in Spanish goats 16(1986)279

An investigation of the roles of boar-component stimuli in the expression of proceptivity in the female pig 18(1987)287

Experimenter visibility, spectacles and tonic immobility in the domestic fowl 22(1988) 371

Colour perception in fighting cattle 23(1989) 199

Vision—see also sheep

Vocalization

The vocalizations and other behaviour of growing pigs in an "open field" test 1(1974/1975)3

Vocalizations of isolated piglets. I. Sources of variation and relationships among measures 1(1974/1975)387

Vocalizations of isolated piglets. II. Some environmental factors 2(1975)19

Examining harp seal behavioural patterns via their underwater vocalizations 2(1975)261

The importance of odour, appearance and voice in maternal recognition of the young in Merino sheep (*Ovis aries*) 3(1977)127

Crowing and mating behaviors in lines of chickens selected for mating frequency 3 (1977)247

Stimuli eliciting foodcalling in domestic chickens 8(1982)543

An ethogram of piglet vocalizations during suckling 11(1983/1984)237

Locomotor, vocal and other behavioral responses to varying methods of weaning foals 14(1985)27

Communication during suckling in the domestic pig. Effects of continuous noise 14 (1985)49

Heritability of the peep vocalization in White Leghorn-type chicks 19(1987)157

Vole

Neurochemical correlates of stereotyped behaviour in voles 13(1984/1985)168

Vomerolnasal organ

Evidence of a role for the vomeronasal organ in social hierarchy in feedlot cattle 12(1984) 53

Vomerolnasal organ and the accessory olfactory system 14(1985)105

Water intake—see also feeding and nutrition

Weaning

Some factors involved in natural weaning processes in sheep 5(1979)43

A preliminary study of two methods of weaning foals 12(1984)177

- The social interaction between mother and offspring during weaning in German Shepherd dogs: individual differences between mothers and their effects on offspring 13 (1984/1985)101
- Locomotor, vocal and other behavioral responses to varying methods of weaning foals 14(1985)27
